Program Office Resources

The Program Office has a small library of publications that students, postdocs, and faculty can check out.

Dissertations

We have bound copies of most dissertations completed by Cancer Biology students since the program began in 1978, arranged by decade.

In addition, you can search for any Stanford dissertation in SearchWorks, and many dissertations since 1989 are available as pdf's in Proquest. See the Stanford University Libraries page for more information.

Cancer Biology Video

- Experiment Impossible
- Romeo & Juliet: A Tale of Two Labs

Books

If there’s a reference book you think we should have, email us.
