

Stanford | MEDICINE

Assistant or Associate Professor

Sean N. Parker Center for Asthma and Allergy Research

Division of Pulmonary and Critical Care Medicine

Department of Medicine

The Division of Pulmonary and Critical Care Medicine, Sean N. Parker Center for Asthma and Allergy Research in the Department of Medicine at Stanford University seek a physician scientist or basic scientist to join the Department as Assistant Professor or Associate Professor in the Medical Center Line or University Tenure Line or Non-tenure Track Line for Research.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching.

The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine and institutional service appropriate to the programmatic need the individual is expected to fulfill.

The major criterion for appointment for faculty in the Non-tenure Line (Research) is evidence of high-level performance as a researcher for whose special knowledge a programmatic need exists.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.

Faculty line and rank will be determined by the qualifications and experience of the successful candidate.

The successful applicant should have an MD, PhD, or MD/PhD and perform basic or translational research in allergy, immunology, and asthma. If an MD or MD/PhD, should be board certified in allergy and immunology and hold or be able to obtain a California medical license.

We are particularly interested in candidates with research programs in the areas of basic science immunology, etiology of disease, links between genetics and environmental exposures, and immune mechanisms of therapy.

Please submit your CV and letter of interest to the attention of Dr. Stephen Galli, Search Committee Chair at: <http://facultyapplication.stanford.edu>
