Children and Adolescents With Autism Needed for Research Study

Stanford University researchers are currently recruiting children and adolescents with Autism Spectrum Disorder (ASD) to study brain development.

In order to participate in this research study you or your child must:

* Be between the ages of 2 and 21 years old
* Have an Autism Spectrum Disorder (ASD)
* Be willing to complete an MRI of the brain and IQ testing

There is no cost and you will be paid up to $50 for fully completing this study.

For more information, contact us at (650) 723-7845 or autismresearch@stanford.edu

For general information regarding questions, concerns, or complaints about research, research related injury, or the rights of research participants, please call (650) 723-5244 or toll-free 1-866-680-2906. You can also write to the Stanford IRB, Stanford University, 3000 El Camino Real, Five Palo Alto Square, 4th Floor, Palo Alto, CA 94306.
