Soft Tissue Sarcoma

Non GIST
(Gastrointestinal Stromal Tumors)

GIST

2nd-3rd Line Therapy

4th-5th Line Therapy

Pigmented Villonodular Synovitis (PVNS)

Perivascular Epithelioid Cell Tumors (PEComa)

Alveolar Soft Part Sarcoma, Leiomyosarcoma, Synovial Sarcoma

SARCOMA0024
Pilot Incisional Negative Pressure Wound Tx in Irradiated Lower Extremity Soft Tissue Sarcoma Wounds
PI: Avedian Medical University South Carolina

SARCOMA0019
Phase III FPA008 in Pigmented Villonodular Synovitis / Diffuse Type Tenosynovial Giant Cell Tumor
PI: Ganjoo Five Prime Therapeutics
1st Priority

SARCOMA0030
Phase III AL3818 An Open-Label, Single Sequence, Crossover Study Assessing the Effect of Pexidartinib on the Pharmacokinetics of Midazolam and S-Warfarin in Patients
PI: Ganjoo Daiichi Sankyo
2nd Priority

SARCOMA0020
Phase II of ABI-008 in Advanced Malignant Perivascular Epithelioid Cell Tumors (PEComa)
PI: Ganjoo Audi, LLC

SARCOMA0026
Phase III AL3818 (Anlotinib) MonoTx in Metastatic/Advanced Sarcoma/Leiomyosarcoma/Synovial Sarcoma
PI: Kummerv Advchen Laboratories

SARCOMA0028
Phase I DCC-2618 in Advanced Malignancies
PI: Ganjoo Dechipera Pharmaceuticals

SARCOMA0031
Phase III DCC-2618 in c-KIT/PDGFRa Gastrointestinal Stromal Tumors
PI: Ganjoo Dechipera Pharmaceuticals

The diagram illustrates various clinical trials and pathways for the treatment of soft tissue sarcomas, including non-GIST and GIST tumors. It highlights different types of sarcomas, their corresponding treatments, and the principal investigators and pharmaceutical companies involved in these trials.
