ORGANIZATIONAL BACKGROUND
The NCCN Foundation® was established in 2009 by the National Comprehensive Cancer Network® (NCCN®), a Section 501(c)(3) public charity dedicated to improving the quality and effectiveness of cancer care provided to patients. NCCN operates as a not-for-profit alliance of 27 of the world’s leading cancer centers (NCCN Member Institutions). Through the leadership and expertise of clinical professionals at NCCN Member Institutions, NCCN develops resources that present valuable information to the numerous stakeholders in the health care delivery system.

The NCCN Foundation strives to continue NCCN’s mission by seeking philanthropic support to engage in activities including, but not limited to, developing a research grant program to encourage and assist physicians, scientists, nurses, and others in conducting innovative and collaborative research in clinical oncology at NCCN Member Institutions. In order to expand upon the body of knowledge available regarding the diagnosis and treatment of cancer, the NCCN Foundation focuses on funding research projects that further its charitable and educational purposes and support researchers in fields for which it is often difficult to obtain funding.

PROGRAM PURPOSE AND DESCRIPTION
Through its Young Investigator Award (YIA) Program, the NCCN Foundation invites proposals from young investigators with innovative ideas and an interest in improving the quality, effectiveness, and efficiency of care provided to cancer patients. A primary focus of the NCCN Foundation YIA program is to identify and fund top investigators in the early stages of their careers, interested in participating and contributing to cancer research. The NCCN Foundation also recognizes the growing need for evidence-based research in the areas of clinical treatment and management (including new diagnostics and molecular markers), health systems and delivery of care, quality of life for cancer patients, and patient education. On average, four to six awards are granted per year.

The awards provide two-year grants of $150,000 for research expenses to promising young investigators across a broad range of oncology specialties and areas of interest. The award may be used to fund salary and benefits of the grant recipient, postdoctoral or clinical research fellows and/or research assistants, data collection and entry, patient costs, analysis, computer costs, necessary purchased services, surveys, and supplies. Within the total budget of $150,000, indirect expenses will be covered to a maximum of 8%. The award may include funds up to $3,000 for IRB review and continuing review. In addition to the $150,000 award, a separate administrative allowance will be provided for travel (up to $575), lodging, and registration expenses to attend the 2020 NCCN Annual Conference. Attendance is mandatory in order for the awardees to present their research results at the General Poster Session.

The award is open to physicians, scientists, nurses and others working in an oncology laboratory, clinical research or clinical setting, or cancer control program in one of NCCN’s 27 Member Institutions, who:

1) Have a first full-time appointment as an Assistant Professor, Instructor, or an equivalent level, and

2) Are MDs, PhDs or, for nurses and others, have an advanced degree.
Each NCCN Member Institution can nominate up to two young investigators who may submit research proposals.

A hallmark of NCCN's programs has been strong attention to excellent data collection, analysis and outcomes measures. Successful YIA proposal submissions will be expected to bring this same high level of rigor to their research and clinical practice programs. Successful candidates will identify and work closely with an appropriate institutional mentor and develop a timeline for their two-year YIA. Following completion of research, abstracts will be published in print and online in JNCCN—Journal of the National Comprehensive Cancer Network. Awardees will be expected to present their findings within their own institution through educational opportunities such as grand rounds and tumor boards.

PROGRAM TIMELINE

- NCCN Member Institution Deadline for identification and submission of up to two candidates is November 22, 2017.
- **Proposal Submission Deadline is January 17, 2018 by 5:00 PM (ET).**
- NCCN Member Institution Deadline for mandatory submission of one Grant Review Committee participant is January 17, 2018.
  - Proposal Submissions from Member Institutions that do not contribute a Review Committee member will not be considered for funding.
- Grant Committee Review will take place via teleconference in February 2018.
- Grant awardees will be announced at the NCCN Annual Conference, March 2018.
- The Award period starts **July 1, 2018 and ends on June 30, 2020.** It is anticipated that eighteen months will be used for the implementation of the scope of work (July 1, 2018 – January 31, 2020) and six months will be used to compile and finalize the study data and comply with all reporting requirements (February 1, 2020 – June 30, 2020).
- Presentation of research results at the NCCN Annual Conference will occur March 2020.

ELIGIBILITY REQUIREMENTS

Nominees must have:

- Medical degree--MD, DO or international equivalent **OR**
- Scientific degree--PhD or international equivalent **OR**
- Nursing degree--Masters and above or international equivalent **OR**
- Primary affiliation/work site at an NCCN Member Institution for the duration of the award period
- First full-time appointment at an NCCN Member Institution and remain in good standing for the duration of the award period
- Mentor in the proposed research field
- Institutional commitment to support the research project
NOMINATION PROCESS
Each NCCN Member Institution may nominate two candidates per institution by November 22, 2017. Instructions for proposal submissions will be sent directly to nominees by NCCN. NCCN Member Institutions may submit the nomination of their two candidates at foundationproposals@nccnfoundation.org. The following information is required:

1) Name
2) Title
3) Telephone Number
4) Email Address

PROPOSAL SUBMISSION PROCESS
All proposal submissions must be submitted in accordance with the requirements and instructions of this Request for Proposals (RFP). Proposals will provide concise documentation of the research plan and are expected to contain sufficient information to allow the reviewers to fully assess the scientific rigor of the proposed study.

The proposal should contain detail regarding the following areas:

Contact Information:
Nominee:
A. Name & Degree
B. Title
C. Institution
D. Area of specialization
E. Address, phone number, email address

Statistical Co-Investigator:
A. Name & Degree
B. Title
C. Institution

Institutional Office of Sponsored Research/Contract Personnel:
A. Name
B. Title
C. Address, phone number, email address

Research Proposal:
Clinical Studies (Maximum 6 pages; one-inch margins & 12-point Times New Roman font)
A. Title/Tumor Type
B. Investigators and institutional affiliations
C. Hypothesis with primary and secondary objectives
D. Background information
E. Study design
F. Study population
   i. Stage
   ii. Major inclusions/exclusions
G. Treatment plan
H. Endpoints/Statistical analysis
I. Feasibility
   i. Estimated time of completion/monthly accrual
   ii. Previous experience with trials that had similar tumor type, phase of study or prior therapy
   iii. Collaborators’ experience, including affiliates
   iv. Competing trials - List all active, approved or in-review studies at your institution for which the same patient population is eligible
   v. Projected Accrual Dates (Month/Year)

Outcomes/Correlative/Pre-Clinical Studies (Maximum 6 pages; one-inch margins & 12-point Times New Roman font)
   A. Title/Tumor Type
   B. Investigators and institutional affiliations
   C. Hypothesis (include relevant background studies)
   D. Preliminary data
   E. Study design (include methods for obtaining samples, administering forms, or performing radiologic studies)
   F. Study population
   G. Methodology
   H. Analytic plan
   I. Feasibility
      i. Accrual/Project completion in the timeframe
      ii. Specimen acquisition

A full protocol may also be submitted in addition to the proposal information specified above.

Required Letters of Support from governing groups of the institution verifying:
   1) Office of Sponsored Research approval
   2) Department Chair/Division approval
   3) Institutional budgetary review and approval
   4) Mentor’s Letter of Support

Letters should be addressed to:
   Robert W. Carlson, MD, CEO
   National Comprehensive Cancer Network
   275 Commerce Drive, Suite 300
   Fort Washington, PA 19034

Ancillary Documentation:
   1) An NCI format Bio-Sketch of the Principal Investigator and Mentor
   2) An appendix of supportive literature may be provided
   3) If support will be sought/provided by other sources, please identify all sources of additional support and documentation of commitment.
BUDGET
Nominees must submit the budget in the NCCN budget format (template attached) and are required to disclose additional sources of funding for this research and demonstrate that funding does not overlap this award. The following information is required.
   A. Breakdown by major cost categories
   B. Justification of major costs with enough detail to demonstrate how funding for major elements in the study will be allocated
   C. For combined clinical and correlative studies, separate budgets for each component should be submitted
   D. Salaries, which are capped at the current NIH salary cap
   E. No travel or publication costs will be covered unless pre-approved

SUBMISSION
Proposals and supporting documents must be submitted in a single PDF document to the NCCN Foundation by January 17, 2018 at 5:00 PM (ET) via the following email address: foundationproposals@nccnfoundation.org.

PAYMENT OF FUNDS
The Award total of $150,000 will be disbursed as follows:
    First payment of $50,000 will be paid on or after July 1, 2018, subject to receipt by NCCN of all required items, which will be identified in the Study Start-up Letter.
    Second payment of $50,000 will be paid subject to satisfactory progress at the end of the first year and upon submission of a satisfactory finance and progress report.
    Final payment of $50,000 will be paid upon submission of a final study report and final expenditure report.

UNSPENT FUNDS
Any unspent portion of the grant funds must be returned to the NCCN Foundation within thirty (30) days of the expiration of grant end date.

NO-COST GRANT EXTENSIONS
Whereas the NCCN Foundation is subject to the terms and conditions of the funders’ supporting this program, under no conditions will no-cost grant extensions be granted.

REPORTING REQUIREMENTS
Awardees are required to submit an annual financial report for each year of the grant funding and quarterly progress reports. The reporting schedule will be stipulated upon NCCN’s notification of the activation of the study.

YIA GRANTS SCIENTIFIC REVIEW COMMITTEE
Each NCCN Member Institution that nominates one or two candidates to apply for YIA funding must also provide a YIA Grants Scientific Review Committee member. Proposal Submissions from young investigators from Member Institutions that do not contribute a Review Committee member will not be considered for funding. The YIA Grants Scientific
Review Committee members will have expertise in the broad spectrum of research areas for the YIAs. Their expertise will be supplemented by NCCN senior staff with background in guideline development, clinical research, and outcomes research. Individual Review Committee members will recuse themselves from reviewing/discussing proposal submissions from their own institutions.

**PROPOSAL EVALUATION CRITERIA**
The YIA Grants Scientific Review Committee will select recipients for YIAs based on the following criteria:

- Scientific Soundness
- Study Design
- Feasibility
- Statistics
- Budget
- Timeline – work **must** be finalized and final reporting submitted with the 2 year grant period

**AWARD ADMINISTRATION**
The NCCN Oncology Research Program (ORP) will provide oversight for the review, selection and awarding of the YIAs. ORP standards will be used by the YIA Grants Scientific Review Committee to review and score proposals received in response to this RFP.

**RESPONSIBLE CONDUCT**
During the Award period, the Investigator must not be absent from participation in the Project or from the Institution for extended periods of time during the Award Period, such as for a sabbatical leave or leave of absence, without prior written approval from the NCCN Foundation.

**HELPFUL RESOURCES**
- [foundationproposals@nccnfoundation.org](mailto:foundationproposals@nccnfoundation.org), email additional questions about this RFP, from either nominees or their institutions. Replies will be sent within 24-48 hours.
