

Colon Cancer Screening Protocol for Every Patient 50-75 Years Old for SCC

No prior screening in the last year (iFOBT, Colonoscopy, Sigmoidoscopy)

With pt's permission, enter an order in epic and give pt iFOBT card to use at home	Write patient's name on the iFOBT card	Teach pt how to collect sample and how to get sample back	Encourage pt to complete the test within a week	Inform patient that they will not be contacted if results are normal	Get an estimate when test will be completed, enter in tickler file for follow-up
--	--	---	---	---	--

Screening more than a year ago (iFOBT, colonoscopy, sigmoidoscopy)

With pt's permission, enter an order in epic and give pt iFOBT card to use at home	Write patient's name on the iFOBT card	Teach pt how to collect sample and how to get sample back	Encourage pt to complete the test within a week	Inform pt that they will not be contacted if results are normal	Get an estimate when test will be completed, enter in tickler file for follow-up
--	--	---	---	--	--

Prior screening with abnormal results with follow-up overdue

If follow-up was already ordered (colonoscopy) and scheduling is overdue, or scheduled but not completed as scheduled	Contact pt to discuss and arrange	If pt declines follow-up, send notification to clinician's inbox	Get an estimate when the test will be completed and enter in tickler file for follow-up	If follow-up indicated and not ordered, send notification to clinician's inbox
