CF PFAC

Committed to excellence and the betterment of the healthcare experience for the CF patient

- Partnering Inward
  - Partnering with the Stanford CF clinic, the Stanford Patients and Family Partners program, and the MyHealth team to continuously improve patient care and support

- Reaching Outward
  - Working with the CFF and Dartmouth University to improve the standards of CF care across the US
Current Activities

- CF Encounters
  - Develop patient case studies to assist clinic personnel in the understanding of patient feelings for common discussions

- Issue Escalation
  - Working with the clinic, define the appropriate escalation path when the patient has concerns on care or perceived inappropriate behavior

- Virtual Healthcare and Online Collaboration
