Dear (fellow) and (mentor),

The CHRI has partnered with the Department of Pediatrics to offer all CHRI-funded fellows and mentors a new “CHRI Fellows Research Club.” Bonnie Halpern-Felsher, Professor and Director of Fellowship Research, and Gary Shaw, Professor and Associate Chair of Clinical Research will lead this interactive and dynamic research seminar designed for ALL fellows in the Department of Pediatrics and ALL CHRI-funded fellows.

The club runs twice monthly, alternating between Mondays and Thursdays (dates below). Future dates/locations will be posted on the CHRI Clinical (MD) Trainee Support page. A full syllabus is attached and will be updated online as well.

Going forward, all CHRI funded fellows are required to attend at least 50% of the Research Club, and mentors are highly encouraged to attend with their fellows. We ask that each CHRI Fellow present at one of these sessions with their mentor present. In addition, the CHRI Fellow’s mentor should attend at least one Mentor Session, specifically designed to train mentors how to help their fellow during research training (we will offer more than one Mentor Session per year).

We will discuss a variety of topics including, but not limited to, identifying research mentors and scholarly projects, study design, statistics, survey development, statistical software, grant writing, research-related resources and networking, works in progress, and so on. We hope you will join us!
