Pfeiffer Visiting Scholar Fall Lecture Series

Mark Schuster, MD, PhD
Dean
Kaiser Permanente
School of Medicine

Wednesday
October 11, 2017
5:30 pm to 7:00 pm

LKSC-LK101

Open to the public

*“The Doctor is Out: Perspectives on
Being LGBTQ in Medicine”*

In celebration of LGBTQ history month, please join us for an informative presentation by Mark Schuster, MD, PhD. Dr. Schuster serves as the founding Dean of the new Kaiser Permanente School of Medicine in Pasadena, California, as of October 1, 2017. Previously he was the William Berenberg Professor of Pediatrics at Harvard Medical School and Chief of General Pediatrics and Vice Chair for Health Policy in the Department of Medicine at Boston Children’s Hospital. Over the course of his career, he has conducted research on child, adolescent, and family health, including quality of care, health disparities, adolescent sexual health, obesity prevention, and family leave. His work on sexual minority health has covered adolescent health, bullying, and transgender health issues, and the published version of his speech, “On Being Gay in Medicine,” has been widely circulated and used as a teaching tool at medical schools. He coauthored the book, *Everything You Never Wanted Your Kids to Know About Sex (But Were Afraid They’d Ask)*.

Dr. Schuster is an elected member of the National Academy of Medicine (formerly the Institute of Medicine), where he served on the committee that drafted the report, “The Health of Lesbian, Gay, Bisexual, and Transgender People: Building a Foundation for Better Understanding.” He has served as President of the Academic Pediatric Association and Co-Chair of the Harvard Medical School LGBT Advisory Committee. He is a recipient of the Society for Pediatric Research Richardson Award for lifetime achievement and the Harvard Medical School Barger Excellence in Mentoring Award.
