CIRM 2.0: A New Funding Paradigm for Stem Cell R&D
California Institute for Regenerative Medicine (CIRM)

- Created by the people of California to accelerate stem cell treatments to patients with unmet medical needs

- With $3 billion in funding and 300 active programs, CIRM is the world’s largest institution dedicated to helping people by developing cell therapies

- We have nearly $1 billion left to achieve our mission
Our Mission

Accelerating stem cell treatments to patients with unmet medical needs.
CIRM 2.0: Accelerating Cures

Bridging the Gap
Turning ideas into therapies

Cell therapy development
Life-saving therapies for patients
Our Translational and Clinical Programs
Target 40+ Diseases

- Neurologic: 23%
- Cancer: 19%
- Cardiovascular: 13%
- Ocular: 10%
- Endocrine: 8%
- Blood: 8%
- Orthopedic: 7%
- HIV/AIDS: 6%
- Other: 6%
- Other: 6%
CIRM 2.0 – A radical overhaul

- A radical overhaul of the way the Institute does business
- Introduces faster, more efficient systems
- Places added emphasis on:
  - Speed
  - Partnerships
  - Patients

Our Funding Opportunities

1. **Discovery**
   - Supports early stage research for advancement to translational studies.
   - **Deadline**: Sept. 2016, every 6 months

2. **Translational**
   - Supports translational projects for advancement to clinical studies.
   - **Deadline**: July 2016, every 6 months

3. **Clinical**
   - Supports late stage preclinical and clinical stage therapies.
   - **Deadline**: Open End of each month
