I am being asked to decide if I want to be in this research study because I am at risk of getting type 1 diabetes. This research study is hoping to learn more about how to prevent or delay diabetes.

I know that to be screened for this study I will:

- Have one or two visits to the clinic for blood tests to see if I can be in this study.

I asked and got answers to my questions. I know that I can ask questions about this study and this screening at any time.

*I know that I can stop coming to the screening visits at anytime without anyone being mad at me. My doctor will still take care of me.*

I want to be screened to see if I can be in the study at this time.

Child’s Printed Name: ________________________________

Child’s Signature: ________________________________

Date: ________________

Witness or Mediator: ________________________________

Date: ________________

I have explained the research at a level that is understandable by the child and believe that the child understands what is expected during this study.

Signature of Person Obtaining Assent: ________________________________
