AT STANFORD

What is MedHub ?

- MedHub is a web-based Residency Management System designed to track and document a variety of critical program and resident activities relating to institutional reimbursement and program accreditation.

med+hub

Why are we using MedHub?

MedHub assists us in three major problem areas:

- Resident work hours in the past were not consistently reported nor tracked
 - MedHub provides improved capabilities to monitor resident work hours
- Citations were common in the area of evaluations
 - MedHub provides improved quality control mechanisms to assist in monitoring program compliance with accreditation standards (such as evaluations)
- Data collection for residents and sub-specialty residents on the Medicare Cost report was poor.
 - MedHub provides improved tools to support the data collection process for the Medicare Cost report audit and Institutional reimbursement

What is MedHub?

MedHub is a web-based Residency Management System designed to track and document a variety of critical program and resident activities relating to institutional reimbursement and program accreditation.

Web-based ensures that you can access MedHub from wherever you can access the Internet- from home, the hospital or from your favorite coffee house !

med+hub

Residency Information Management

- MedHub is a fully secured web based system that is accessible by the following stakeholders:
 - Residents, Sub-Specialty residents (Fellows) & First Year Residents (Interns)
 - Program Coordinators
 - Program Directors and Faculty
 - GME Office
 - Hospital Finance
 - Read Only Users (nurses, paging, technicians, etc.)

MedHub Basic Facts II

- MedHub is comprised of integrated modules which address:
 - Block Rotation and Call Schedules
 - Resident Demographics
 - Resident Duty Hours
 - Conferences & Attendance
 - Evaluations (Creation and Delivery)
 - Case/Procedure Logging
 - Reporting
 - Communication
 - Contract Management
 - Affiliated Institutional Billing

Med Hub Benefits

- MedHub promotes data quality through increased data visibility and streamlines communication across all user types
- Automatic error checking, email reminders, rules, flags and algorithms build confidence in data quality
- MedHub encourages all Stanford stakeholders to collaborate and take ownership of a process that had been ad hoc and decentralized
- The MedHub workflow review and approval process ensures actions initiated by residents are approved by program administrators, GME and finance as data moves seamlessly up the food chain
- MedHub is innovative and intuitive to use.

What do I need to do on MedHub?

All SHC & LPCH RESIDENTS and SUB-SPECIALTY RESIDENTS use MedHub to:

- Document duty hours each week - **Mandatory** for all residents, 1st year residents and sub-specialty residents
- Log procedures (where required)
- Initiate Absence Requests (Vacations, Away Conferences, and Leaves of Absence) - **Mandatory** for all residents, 1st year residents and sub-specialty residents
- Complete evaluations- **Mandatory** for all residents, 1st year residents and sub-specialty residents and faculty
- View Master Rotation Schedule
- View Program Curricula – **Mandatory** for all residents, 1st year residents and sub-specialty residents
- Address Alerts – **Mandatory** for all

How do I log in ?

- MedHub <http://stanford.medhub.com>
 - Use your user name and MedHub password sent to you by your Program Coordinator from "support @ medhub.com" (do not delete this e-mail)

The screenshot shows the login page for the Stanford Hospital & Clinics Residency Information Management System. The page features the Stanford Hospital & Clinics logo at the top left, followed by the text "Residency Information Management". A navigation bar contains links for "Forgot My Password" and "Help". The main content area includes a welcome message, a login form with fields for "username:" and "password:", a "remember me" checkbox, and a "Login" button. The login form is set against a circular red background with a group of medical professionals. At the bottom, there is a "POWERED BY med+hub" logo, a browser recommendation, and copyright information.

- *Logging on to MedHub:* <http://stanford.medhub.com>
(NO www.)
 - Your username and password will be emailed to you from “support@medhub.com”
 - If you do not receive it, please contact your Program Coordinator.
 - You will be asked/prompted to change your password upon initial access and directed to the Change Password screen. Just follow the simple directions to change your password.
 1. Can not be the same as the current password
 2. Must be 5-12 characters in length
 3. Must contain at least one non-alpha character (such as a number)
 - If you forget your password on subsequent log-ins, merely click the “Forgot My Password” and your password will be e-mailed to you at your e-mail address of record.

You will be prompted to change your password when you are logging in for the first time:

You are here: [myHome](#) » [myProfile](#) » Change Password

Change Password

Current Password:	<input type="password"/>
New Password:	<input type="password"/>
Confirm New Password:	<input type="password"/>
<input type="button" value="Change Password"/>	

Use this form to change your password.

Password Guidelines:

1. Can not be the same as the current password
2. Must be 5-12 characters in length
3. Must contain at least one non-alpha character (such as a number)

The **Neuro-Log** database system is an internet-based of Neurological Surgery (ABNS) to facilitate gathering resident case log accumulation, and Maintenance of Certification, and practice. **Neuro-Log** can track the standards. The cataloging of data is streamlined and yield both the appropriate ABNS/RRC procedural codes can thus learn the CPT code structure. The system

ABNS NEWSLETTER

Residents in Neurological Training: The Head of both neurosurgical training programs and resident certification, the Residency Review Committee for Neurological Surgery (RRC) for training programs. This process requires extensive benchmarks established by the RRC. For this neuro of all procedures in which they are involved. **Neuro-Log** clinical year as required by the ABNS and RRC.

OPERATIVE LOG

Welcome to the CTSNet Operative Log, which allows surgeons-in-training to track their operative cases continuously and in real-time. CTSNet provides this service in collaboration with the [American Board of Thoracic Surgery](#) (ABTS version) and the [European Board of Thoracic and Cardiovascular Surgeons](#) (EBTCS version).

To use the Operative Log, enter your CTSNet User ID and password.

User ID:

Password:

Please read the document "About the Operative Log" before using the application. This page contains important information about the background, purpose, and terms of use of the Operative Log.

To complete evaluations – simply click on the appropriate response or type in comments and click “Submit” at the bottom of the page or you can hit “Save answer –I will finish later” and then submit to save your responses and return to the evaluation form at a later time to complete and submit – all electronically.

[Insufficient contact to evaluate](#) (delete evaluation)

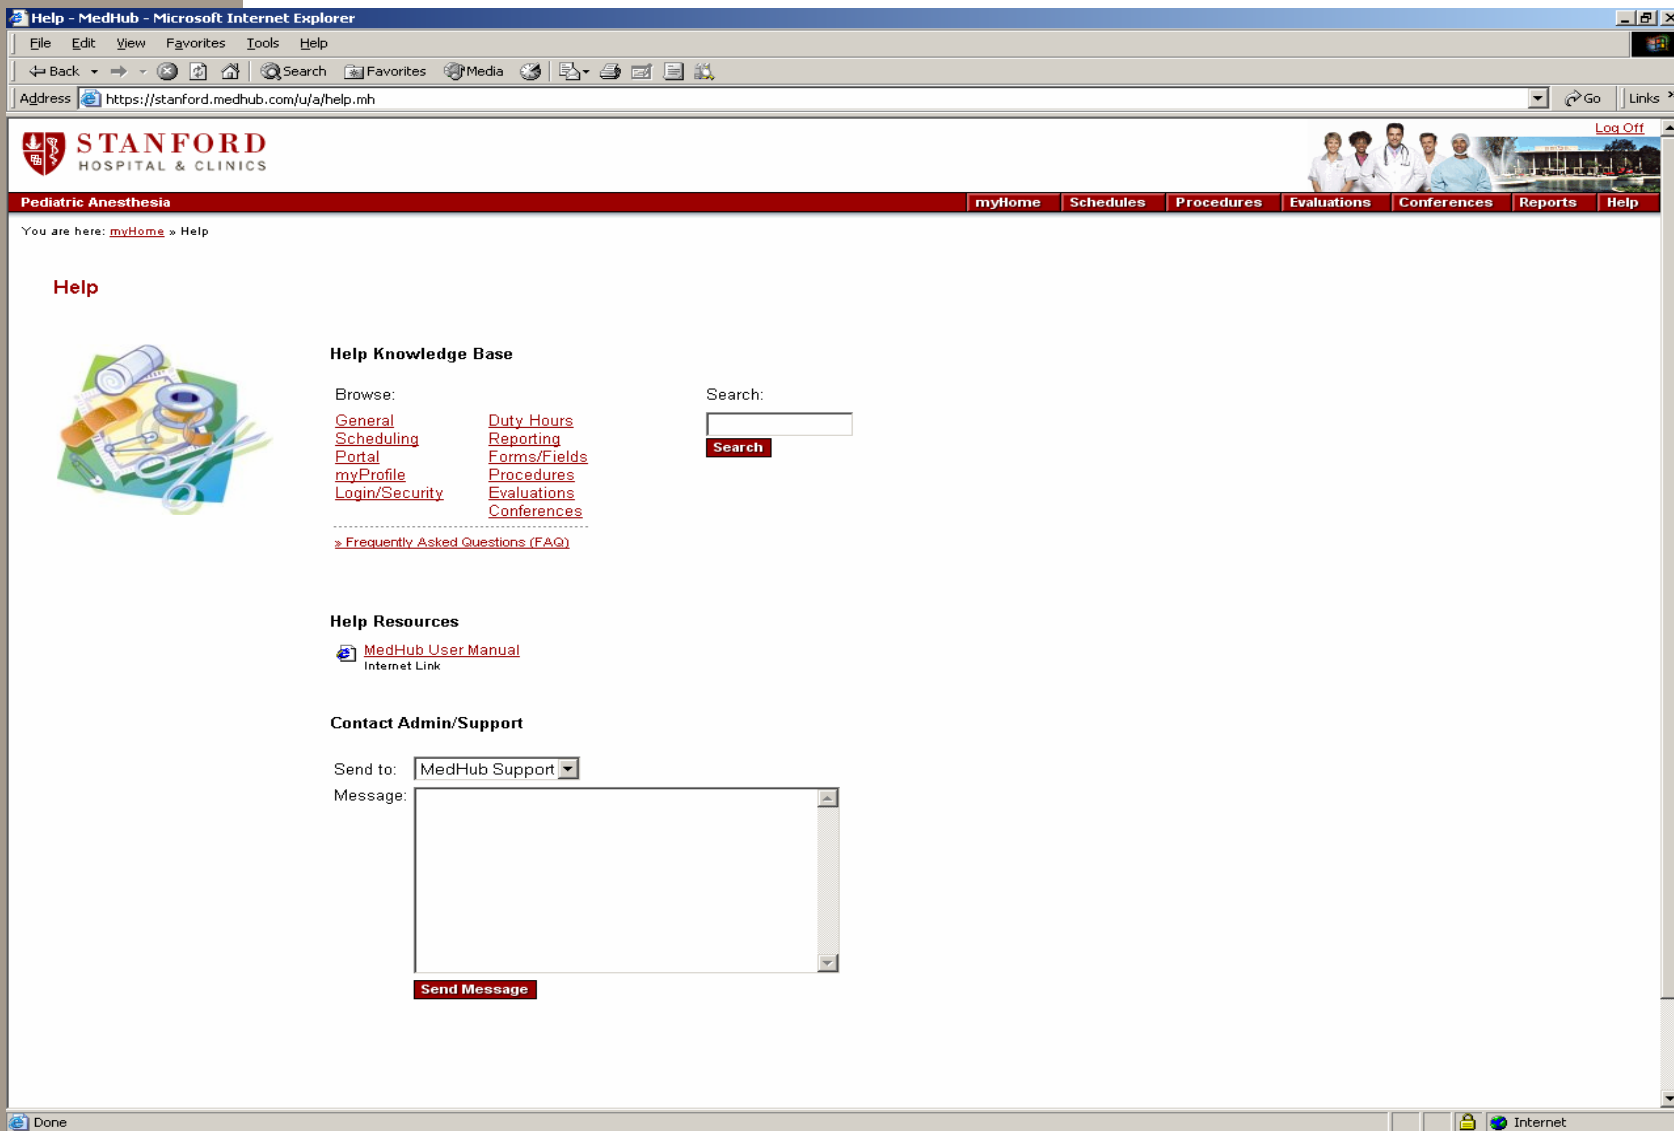

Pediatric Anesthesia Faculty Evaluates Fellow

Activity: *
Period (month): *
Evaluator: *
Subject Participation Dates: *
Name and location of rotation, elective or research: *

	Unsatisfactory			Satisfactory			Superior			Insufficient contact to judge N/A
	1	2	3	4	5	6	7	8	9	
Clinical Judgement*	Often fails to discern relationship of medical facts and clinical data, evaluate alternatives, or consider risks and benefits. Does not understand limitations of higher knowledge or skills. Poorly established priorities. Illogical, rambling, incomplete, or inaccurate presentations or medical records. Indecisive in difficult management situations.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Regularly integrates medical facts and clinical data, weighs alternatives, understands limitations of knowledge, and incorporates consideration of risks and benefits. Spends time appropriate to the complexity of the problem. Presentations, records, and consultation notes always accurate, responsive, explicit and concise.	<input type="radio"/>
Medical Knowledge*	Limited, poorly organized. Adds little to referring physicians knowledge.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Extensive and well applied. Consistently up-to-date.	<input type="radio"/>
History-Taking*	Often incomplete, superficial, by rote, and not directed.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Always precise, logical, thorough, reliable, purposeful, and efficient. Suitably focused. Specifically and clearly convey sophistication.	<input type="radio"/>
Physical Examination*	Often incomplete, inaccurate, cursory, non-directed, insensitive, awkward or unreliable.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Complete, accurate, directed toward patient's problems. Elicits subtle findings, uses special techniques when necessary.	<input type="radio"/>
Procedural Skills*	Inept. Frequent disregard for risk to patient and patient's anxiety and comfort.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Always proficient. Minimizes risk and discomfort to patients. Provides proper explanation of purpose for conducting procedures.	<input type="radio"/>
Personal Qualities*	Lacks appropriate integrity, respect, compassion, empathy. Displays insensitivity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Always demonstrates integrity, respect, compassion, and empathy for patients.	<input type="radio"/>

How do I get Help in MedHub ?

Navigate to Help- by clicking "HELP" on the Red Navigation Bar

- Getting Help
 - Online User Documentation
 - Knowledge Base
 - User Documentation
 - FAQs
 - Logging a trouble ticket
 - Go to the Help screen and provide as much information as possible
 - Questions about Stanford residency program process or policy should go to your program coordinator (Drop down menu's)
 - Questions about MedHub functionality should go to MedHub, but MedHub support cannot edit, delete or unlock data
 - If you want to change data-please contact your program administrator.
 - If you cannot access MedHub, try to access another site (ebay.com, msn.com)
 - If you cannot access any site, it is not a MedHub issue but a network issue and you need to contact the Hospital IT Help Desk – 3-3333 from inside the hospital complex or 650-723-333 from off-campus.
