

Stanford Medicine and the Muse needs your help

if we are to continue to be the home for all those exploring the vibrant intersections of the arts, humanities, & social sciences with health, illness, healthcare & caregiving

- Inspiring events with innovators in arts & health
- Opportunities for students & faculty to research health humanities
- Courses on writing, literature, arts, film, and the context of medicine
- Collaborations to understand the meanings of health and illness
 - Workshops, retreats, seminars, lectures and more
- Community building at Stanford Medicine to strengthen our humanism
