The Division of Oncology in the Department of Medicine at Stanford University is recruiting a thoracic medical oncologist. The faculty position is at the Assistant or Associate Professor level in the Medical Center Line (MCL). The successful candidate should be an accomplished clinical investigator with a demonstrated record of publication in leading cancer journals. Faculty rank will be determined by the qualifications and experience of the successful candidate.

The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill.

The successful candidate will be expected to build an academic thoracic oncology research program, initiate clinical/translational research, teach fellows, and participate in the thoracic oncology clinics and tumor board. Candidates must have an MD and be board certified or eligible in Medical Oncology. The Division of Oncology benefits from an outstanding scientific and clinical environment at Stanford, including active collaborations with the basic science departments and the Stanford Institutes, including the Stem Cell and the Cancer Institutes.

Please send curriculum vitae, a statement of career plans, and names and addresses of three references to:
