The Bay Area Ophthalmology Course at Stanford University
For Residents in Training and Practicing Ophthalmologists

COURSE DIRECTOR: Dr. Steve Sanislo

The Bay Area Ophthalmology Course (formerly the Basic Science Course in Ophthalmology) has been offered to the vision community since 1970, presented by faculty from the four area teaching programs and recognized experts from other institutions. The Course offers intensive instruction in the fundamental sciences underlying ophthalmic practice and research, including ophthalmic pathology, optics, epidemiology, genetics, immunology, pharmacology, orbit and oculoplastics, neuro-ophthalmology, corneal and refractive surgery, cataract surgery, glaucoma, pediatric ophthalmology and strabismus, and retinal surgery. Laboratory sessions are offered in pathology, optics, and phacoemulsification. Approximately seven and a half hours of instruction are offered each day, with corresponding handouts. Several evening receptions are included. The BAOC provides a strong and practical basis for residents in ophthalmology, vision scientists, and a review and update for practicing ophthalmologists. Foreign participants at every level of training are most welcome to attend.

TUITION
Tuition for the 2019 BAOC full course is $3,750. Tuition for an individual week(s) is $1,000.

Registration by 3/31/19 will receive a 5% discount on tuition fees.

Cancellation policy: A full refund will be provided if cancellation requested by 4/30/19 and a 90% refund if cancellation occurs between 5/1/19 and 5/31/19. No refund will be available if cancellation occurs after 5/31/19.

MEDICAL SCHOOL CLERKSHIP
The Course has been approved as a medical school rotation and is listed as OPHT302A. Medical students from U.S. and Canadian programs are welcome to apply. Please reference the School of Medicine Clerkship website at http://med.stanford.edu/md/clerkships/ for a listing of eligibility requirements. If you are a Stanford student, please register using AXESS. Stanford medical students who are interested in Ophthalmology as a career are strongly encouraged to attend this course.
