Come learn and prepare for fellowship...

The Stanford Pediatric Cardiology Fellows’ Boot Camp is now accepting applications from incoming fellows from all training programs throughout North America. Our highly-rated immersion and simulation-based curriculum has been shown to improve readiness for fellowship*.

The Boot Camp includes:

- **Cardiac Anatomy:** Gross Anatomy Dissection
- **Echocardiography:** High-fidelity Transthoracic Echo Simulation, Basics of Echo Interpretation
- **Cardiac Intensive Care:** Defibrillator Training, Team Resuscitation Simulation and Debriefing, Access/Procedure Stations
- **Electrophysiology:** Arrhythmia Recognition and Treatment, Pacemaker interrogation, Temporary Pacemaker Programming, Telemetry Navigation
- **Pulmonary Hypertension:** Management and Treatment of PH
- **Heart Failure:** Hands-on VAD Training
- **Interventional Cardiology:** Hemodynamic Calculations, Fluoroscopy/Catheter Manipulation Simulation
- **Cardiac Surgery:** Primer on Cardiopulmonary Bypass

**New!** Virtual Reality Cardiac Anatomy Demonstration

**All travel, hotel, meals and registration fees provided for in-coming first-year fellows!**

Only 40 spots are available, so apply today!
