

Pediatric Cardiology Fellows' Boot Camp

June 1 - 3, 2019

Come learn and prepare for fellowship...

The Stanford Pediatric Cardiology Fellows' Boot Camp is now accepting applications from in-coming fellows from all training programs throughout North America. Our highly-rated immersion and simulation-based curriculum has been shown to improve readiness for fellowship*.

The Boot Camp includes:

- Cardiac Anatomy: Gross Anatomy Dissection
- Echocardiography: High-fidelity Transthoracic Echo Simulation, Basics of Echo Interpretation.
- Cardiac Intensive Care: Defibrillator Training, Team Resuscitation Simulation and Debriefing, Access/ Procedure Stations
- Electrophysiology: Arrhythmia Recognition and Treatment, Pacemaker interrogation, Temporary Pacemaker Programming, Telemetry Navigation
- Pulmonary Hypertension: Management & Treatment
- Heart Failure: Hands-on VAD Training
- Interventional Cardiology: Hemodynamic Calculations, Fluoroscopy/Catheter Manipulation Simulation
- Cardiac Surgery: Primer on Cardiopulmonary Bypass
- Virtual Reality Cardiac Anatomy Demonstration

In-coming Fellows from various programs come together for a weekend of hands-on learning, including sessions with The Stanford Virtual Heart

High-fidelity simulation education from world-renowned Stanford cardiologists and cardiac surgeons

All travel, hotel, meals and registration fees provided for in-coming first-year fellows!

Only 40 spots are available, so apply today!
