

Important Information for Pediatric Cardiology Camp Attendees

Costs and Fees

- The costs of registration, meals, hotel (3 nights), simulation based equipment, and educational items will be provided at **NO COST** to you.
- If you are traveling from outside of the Bay Area, a hotel room in Palo Alto, California will be booked for you in your name for Friday, May 31, Saturday, June 1 and Sunday, June 2. If you would like to extend your hotel stay at the discounted rate you may do so but the boot camp will only be paying for the above nights.
- All meals will be provided free of charge at the conference center.

Flight Reimbursement

- Please book your round-trip flight. We will reimburse you after the conference, with a \$500 maximum total reimbursement. Please contact [Lupe Romero-Villanueva](#) if you have any questions.

Research Component

- The primary objectives of this event are educational. We are always striving, though, to improve the boot camp experience and to learn if some of the educational tools we are using are effective. As such, there will be a research component to the event so that we can gauge the effects of some of our teaching and learning modules. All research related activities (such as testing) will be anonymous and no feedback, scores, or other metrics will be shared with your program director.

Expectations

- As part of agreeing to be a part of this training program, you agree to complete all pre and post training surveys and all pre and post-training testing.
- We will also have pre-boot camp training modules. These modules provide basic teaching in some core areas of pediatric cardiology and are designed to improve your knowledge of pediatric cardiology. These modules may take up to 3-5 hours to complete and you will be required to complete these in order to attend the boot camp in June 2019.

Transportation:

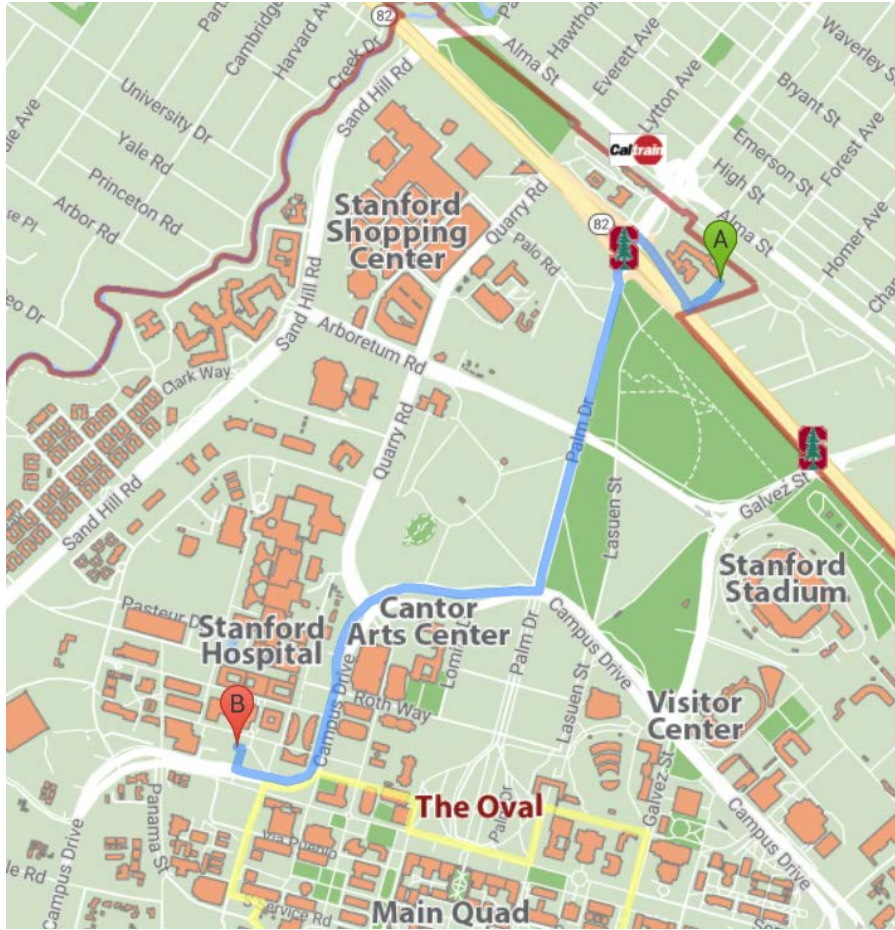

- You are responsible for transportation to and from the airport and to and from the hotel to the boot camp. There is a free shuttle (Marguerite Shuttle) that provides transportation from near the Sheraton to the Li Ka Shing Center (<https://transportation.stanford.edu/marguerite/view-maps-and-schedules>).
