  - Julie Depper: 650-799-8591
  - Megan Brown: 650-250-6188

*** Med Student’s log in to their Voalte phones with the generic logins:
username: pcumedstu3          password: 11111
username: pcumedstu4          password: 11111
Rounding Structure:
- GI team rounds being at 9AM on Mondays and Fridays, 8:30AM Tuesday-Thursday
- Rounds are multidisciplinary: Physician team + GI pharmacist + Nutritionist + Case Manager

Presentation Tips:
Some of these may sound basic, but they are essential to taking care of Green patients.
- Systems-based, SOAP format; when calling for consult, use SBAR
- Report weight, ins/outs, and kcal/kg/day (if patient is on formula or TPN)
- Calculate a PUCAI/PCDAI score for Ulcerative Colitis and Crohn's Disease patients
- Familiarize yourself with your patient’s anatomy (since a lot of patients are post-resection or transplant). How much bowel do they have? Where is the anastomosis?
- Familiarize yourself with your patient’s feeding tube: location, type, size, when it was placed

Expectations:
Senior:
- Teach and try to leads rounds
- Write orders during rounds and update sign-out
- Assist with writing TPN for all patients with intern

Intern:
- Pre-round on all patients and write daily progress notes
- Write all H&Ps and discharge summaries
- Primary point contact for patients and families
- Write TPN with Senior

Liver Team Patient Coverage:
- Weekdays: Liver PA takes care of all pre- and post-transplant patients except at nights
- Weekends: Resident Team takes care of ALL non-ICU liver patients in the afternoon and evening after the weekend PA has left
