

EVALUATION OF FELLOW PRESENTATION OF CASE MANAGEMENT
(DIRECT OBSERVATION OF A FELLOW)

FELLOW: _____ DATE OF PRESENTATION: _____

1. Patient care as presented:

- a. Does the fellow present a complete history? _____
- b. Does the fellow present a relevant physical exam? _____
- c. Does the fellow articulate an understanding of why which laboratory and radiographic studies were done? _____

When more than one test is possible, does the fellow explain how the test was chosen? _____

- d. Does the presentation of the possible diagnoses include a thoughtful differential diagnosis? _____

Does the differential diagnosis reflect knowledge of rank ordering as a basis for minimizing overuse of resources? _____

- e. Does the approach to the management take into account
 - i. The child's age? _____
 - ii. The parent's responses? _____
 - iii. A weighing of alternatives? _____
 - iv. Cost? _____

- f. Does the presentation include plans for long-term follow-up? _____

2. Medical Knowledge

- a. Is there any evidence that supportive basic science was included? _____
- b. Is there any evidence that supportive clinical science was included? _____

3. Practice-Based Learning

Does the presentation confirm that the fellow was able to locate, appraise, and assimilate evidence from scientific studies to make decisions? _____

4. Systems-Based Practice

Does the presentation confirm that the fellow was able to understand how the patient care fit into the larger system of health care? _____

5. Overall Impression (include areas of strength and areas that need improvement)
