The Department of Psychiatry and Behavioral Sciences at Stanford University School of Medicine is seeking two full-time faculty members at the rank of Assistant Professor or Associate Professor in the Medical Center Line. These are clinical, research, and teaching positions that will be based within the Department’s Division of Child and Adolescent Psychiatry and Human Development, with primary focus on anxiety disorders or attention deficit-hyperactivity disorder. The successful candidates will utilize multi-disciplinary methodology to conduct cutting-edge clinical research, provide specialized clinical care for children and adolescents, and teach and supervise Stanford trainees in psychiatry and psychology on pertinent issues in clinical care and research. Excellent clinical training in psychiatry or psychology and an established track record of research are expected. Experience conducting multi-dimensional psychiatric or psychological research that integrates conceptual and factual information across related dimensions of inquiry, such as neuroimaging, neuroscience, behavioral science, and/or genomics, is desired. Eligible physician candidates must have a medical degree or equivalent degree, completed training in General Psychiatry, board certification or board eligibility in General Psychiatry, and possess or be fully eligible for a California medical license. Preference will be given to physician applicants with subspecialty board certification in Child and Adolescent Psychiatry. Eligible psychologist candidates must have a doctoral degree in clinical psychology or equivalent degree, and possess or be fully eligible for a California psychology license.

General criteria for the Medical Center Line (MCL) are:

“The major criteria for appointment, reappointment and promotion for faculty in the MCL shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service.”

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university’s research, teaching and clinical missions. Interested candidates should send a copy of their curriculum vitae, a brief letter outlining their interests, and the names of three references via e-mail only to:
