Hoover Library Symptomatic Only	211 Quarry Rd, 2 <sup>nd</sup> Floor Enter through outside library entrance	Mon – Sat 8:30-10:00 1:30-3:00

## Urgent Testing

### Palo Alto Hospital Campus

Our urgent testing capacity is quite constrained. Please use only when your absence *within the next 12-24 hours* would have a significant patient care impact (e.g. cancelled visits/procedures) or would create a GME jeopardy situation

### How to Get Tested Urgently (7:00am – 9:00pm)

**Faculty:** Call page operator at 650-723-6661 to reach HRT provider on-call

**Trainees:** Call program director for authorization and further instructions

**After Hours (9pm to 7am, for both faculty and trainees)**

**Not yet available as of 12/21/20**

Call page operator at 650-723-6661 (pager 17849, needle stick RN). Please use only when patient care would otherwise be impacted on the following day.

## ALL COVID SYMPTOMS COUNT, HOWEVER MILD!

Symptoms include headache, rhinitis, pharyngitis, cough, dyspnea, fever, myalgia, loss of taste or smell, diarrhea, and nausea. **There is no evidence that “mild” symptoms are less likely to indicate COVID infection.**
