Tuesday, July 23
5:45 to 7:00 PM
Reception until 8 P.M.
Alway Building, M106
300 Pasteur Drive, Stanford Medicine

Building a business in precision diagnostics

Sponsored by:
SPADA: The Stanford Predictives and Diagnostics Accelerator
Stanford Clinical & Translational Science Awards (CTSA) Program

Matthew Rabinowitz, PhD
Co-founder and Executive Chairman of the Board,
Natera, a genetic testing and diagnostics company

Russ Altman, MD, PhD, professor of bioengineering, medicine genetics, biomedical data science and (by courtesy) computer science, will host a lively discussion on using signal processing and machine learning techniques to enable unique coverage and accuracy in diagnostics. They’ll also discuss what aspects to consider in building diagnostic businesses from novel technologies.
