**HOUSEKEEPING**

*This is a recorded event.* Please turn off all electronic devices. Please walk around the camera’s line of vision. Videos will be posted on the website as soon as they are available.

Ask a question.

*Help GME help you!* Fill out the feedback survey at the end of this packet. Tell us how we are doing so we can meet your interests in future workshops.

**HOSTED BY**

This event is hosted by Melanie Geiphart Hayden, MD, Assistant Professor of Neurosurgery, and Laurence Katznelson, MD, Associate Dean of Graduate Medical Education.

**QUESTIONS?**

For general questions and inquiries about upcoming Transition to Practice workshops, please contact Thi (tdinhla@stanford.edu).
Melanie Hayden Gephart, MD
■ Assistant Professor, Department of Neurosurgery
■ Email: mghayden@stanford.edu

Melanie is an Assistant Professor in Neurosurgery, with an active neurosurgical practice focusing on brain tumors. Her translational basic science lab focuses on developing novel therapies for malignant primary and metastatic central nervous system tumors. During neurosurgery residency she served as the sole resident representative on the Residency Review Committee for Neurosurgery at ACGME and for four years on the Stanford Graduate Medical Education Committee (GME). She developed this transition to practice course based on her work with ACGME and Stanford GME, with the goal of easing the switch from residency to independent practice.

Laurence Katznelson, MD
■ Associate Dean of Graduate Medical Education
■ Professor of Neurosurgery and Medicine (Endocrinology and Metabolism)
■ Email: Ikatznelson@stanford.edu

Laurence Katznelson, MD received his medical degree from the University of California, Los Angeles and performed his internship and residency in Internal Medicine at the Hospital of the University of Pennsylvania, Philadelphia. He then performed a fellowship in Endocrinology and Metabolism at the Massachusetts General Hospital, Boston, and then stayed on as faculty in the Neuroendocrine Unit. Dr. Katznelson is currently a Professor of Neurosurgery and Medicine at the Stanford University School of Medicine. Dr. Katznelson was the endocrinology fellowship Program Director at Stanford for the past 10 years. At Stanford, he is the Associate Dean of Graduate Medical Education and the Chair of the GME Committee. Dr. Katznelson is the Medical Director of the Pituitary Center at Stanford Health Care.
Mark Albi
■ AVP, Risk Management
■ Email: MAlbi@stanfordhealthcare.org

Mark joined The Risk Authority last year as an AVP of Risk Management. He is responsible for the daily operations and administration for the two insurance entities that cover Professional Liability for SHC/ LPCH/ SOM/ UHA/ PCHA: PEAC and SUMIT, as well all other commercial insurance lines. He has 20+ years underwriting experience with major insurance carriers specializing in Medical Professional and General Liability, Workers Compensation and Commercial Automobile. Mark serves as a consultant to the Office of General Counsel regarding insurance related matters and is a member of the SHC Supply Chain Improvement Steering Committee.
Martha Trujillo  
■ Director of Financial Aid, School of Medicine in EPS Financial Aid Operations  
■ Email: mtrujill@stanford.edu

Ms. Trujillo’s interest in health care began in the early 1980’s managing a community health care center in her native San Jose, CA, working full-time and attending school part-time to pay her college expenses.

She joined Stanford University in 1984 working with the Faculty Practice Program patient accounting unit for Stanford University Hospital and Clinics, and after three years, went on to manage the outpatient Oncology Clinic.

In the teaching environment of the clinic, she was introduced to the academic side of medicine and recruited for the position of Manager of the Office of Student Affairs for the School of Medicine in 1989. For the following 10 years, she served as the administrative services manager for the office and was involved in multiple aspects of providing support for the medical student population. In 1998, she transitioned into financial aid as an assistant director and shortly after to director of financial aid, the position which she currently holds.

Even though she had set her career goal in health care administration, financial aid has been a fulfilling alternative and a pleasant detour. The role has provided a bridge between her interests in health care administration by that of managing resources needed for physician training. She earned her BS in Business Administration from San Jose State University in 1984 and Master in Public Administration, Health Services Administration in 1988 from the University of San Francisco.

She has served on various AAMC task forces, including the AAMC’s Working Group on Educational Costs and Debt and a three-year term as the liaison to the Group on Student Affairs-Minority Affairs Section Minority Affairs Committee to the Committee on Student Financial Assistance (COSFA). She has also conducted and presented at many pre-med workshops including Stanford’s annual SUMMA and URC/AMSA conference at UC Davis.

Jason DiLorenzo  
■ Founder of Doctors Without Quarters, LLC  
■ Email: jason@dwog.com

Jason DiLorenzo is the Founder of Doctors Without Quarters, LLC, a national student debt advisory firm dedicated to the financial wellness of early-career graduate health professionals. Since 2010, he has served as an expert lecturer and panelist for graduate schools, hospitals, and at national conferences on the increasingly complex and evolving topic of student loan best practices and federal loan legislation that can benefit many of today’s young professionals.

Jason graduated with a BBA in Finance from Stetson University. When he’s not working with young doctors to strategically reduce their debt, you’ll likely find him in the mountains on a snowboard or in a pair of hiking shoes, playing volleyball, or taking in an outdoor concert.
