Assistant, Associate or Full Professor
Division of Head & Neck Surgery
Department of Otolaryngology at
Stanford University School of Medicine
and at the Veterans Affairs Health Care System,
Palo Alto, California

The Division of Head and Neck Surgery in the Department of Otolaryngology-Head and Neck Surgery at Stanford University School of Medicine seeks a board-eligible or board-certified Head and Neck Surgeon with fellowship training in Head and Neck Surgical Oncology.

This position offers a unique opportunity to develop or deepen a career as a head and neck surgeon-scientist and to provide clinical care at the Palo Alto Veterans Affairs Health Care System and the Stanford Cancer Center. The selected candidate will join and expand an active clinical practice in the full breadth and depth of head and neck oncologic surgery including microvascular reconstruction; endocrine surgery; and transoral endoscopic head and neck surgery, including transoral robotic surgery. The ideal candidate is a superb educator and an effective hands-on teacher of medical students and residents with the ability to develop a robust research program.

Faculty rank and line at Stanford University (Medical Center Line, University Tenure Line or the Clinician Educator Line) will be determined by the qualifications and experience of the successful candidate. The predominant criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine and institutional service appropriate to the programmatic need the individual is expected to fulfill. The major criteria for appointment for faculty in the University Tenure Line is a major commitment to research and teaching. The major criteria for appointment for faculty in the Clinician Educator Line shall be excellence in clinical care, clinical teaching, and scholarly activity.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university’s research, teaching and clinical missions.

Submissions will be reviewed beginning November 1, 2017 and accepted until position is filled.
