

Strong Earthquake

Strong Earthquake is Occurring

After Building has been cleared for Re-entry

Take cover.
Get away from windows and shelves.

Stay put
until shaking stops.

Keep calm.
Take a deep breath.
Stay in your area but be ready to evacuate.

Look for injured.
Give first aid. Call for help.

Evacuate injured to the Emergency Department
or designated triage area.

Are people trapped?
Check restrooms, patient areas,
Leave doors open.

Evacuate to Nearest EAP

Look for chemical hazards,
fire, gas leaks, water line
breaks. Report to **286** or SoM
SOC, if activated

**Prepare to implement the SoM
School and Department Plans**

Prepare for aftershocks.

**Turn off and unplug
non-essential equipment.**

Limit use of sinks and toilets
until Engineering & Maintenance has
determined that sewage lines are not
damaged.

Assess damage in the area.
Use Damage Assessment forms.
Deliver forms to the SoM SOC
