

**Fire
(Code Red)**

Smoke or Fire
is detected
from within a
building or
laboratory

Smoke or Fire
is detected
from the
outside of a
building

**Activate Fire
Alarm**

Alert building occupants,
call 286 from Stanford
phones or 911 from Mobile
(cell) phones

Evacuate building occupants to their
assigned Emergency Assembly Point
(EAP).

If occupants are trapped, note location and
other pertinent information.

**Notify Emergency Responders to
rescue them.**

Only Security, SoM Health & Safety Officials or
the Fire Dept. can authorize you to go back into
the building.

During Evacuation

Take note of any
chemical spills or
other hazards.
Inform responders of
any unique situations
in laboratories

If fire is serious and
will close a building
or multiple
buildings, the
School's Incident
Commander in
conjunction with SU
and SoM officials
will determine if
activation of the
SOC is necessary
