Dear Course Participants,

On behalf of Course Directors Alan K. Louie, MD and Kim Bullock, MD, it is our pleasure to welcome you to the 3rd Annual Innovations in Psychiatry and Behavioral Health: Virtual Reality and Behavior Change, a Continuing Medical Education Conference presented by the Department Psychiatry and Behavioral Sciences at the Stanford University School of Medicine.

STATEMENT OF NEED
This symposium seeks to fulfill the need for physicians, psychologists, nurse practitioners, and clinical social workers to increase their knowledge and competence regarding innovations in the application of virtual reality (including augmented reality) in psychiatry and behavioral health, including appropriate referral of patients for these treatments. Topics will also include discussions of virtual and augmented reality innovations and resources that are most likely to change the field including, but not limited to: emerging therapies and devices, impactful combinations of existing treatments with virtual reality, and models for how clinicians may collaborate on these innovations with computer scientists and engineers. Notably, teaching techniques at the symposium will include speakers, posters, and an innovation lab, in which attendees may apply to present solutions to challenge problems in an award contest and engage in experiential learning to improve upon ideas in real-time through expert feedback and interaction.

TARGET AUDIENCE
This is an international program, designed for physicians, psychologists, nurse practitioners, and clinical social workers practicing in the following specialties:

- Family Practice
- Primary Care
- Neurology
- Psychiatry
- Anesthesiology
- Pediatrics
- Neurosurgery

Also welcomed are people interested in VR/AR from fields like medicine, engineering, computer science, business, education, law etc.
CME LEARNING OBJECTIVES
At the conclusion of this activity, participants should be able to:

- Evaluate and appropriately refer patients for the newest virtual and augmented reality treatments for health behaviors and mental health including: addiction, anxiety disorders, functional neurological disorder, mood disorders, post-traumatic stress disorder, pain/pain disorders, and other psychiatric disorders.
- Evaluate and appropriately refer patients for the newest virtual and augmented reality treatments for the management of pain/pain disorders.
- Effectively collaborate with interdisciplinary teams of physicians, computer scientists, engineers, and business people to provide optimal psychiatric and behavioral care to patients.

CE LEARNING OBJECTIVES
As a consequence of attending the sessions outlined below, participants will be better able to:

<table>
<thead>
<tr>
<th>OCT 6</th>
<th>Session I: Introduction to VR/AR in Healthcare</th>
</tr>
</thead>
<tbody>
<tr>
<td>7:45 am-12:30 pm</td>
<td>Describe three treatment situations where utilizing VR might be more cost-effective or clinically powerful than in traditional approaches to care</td>
</tr>
<tr>
<td></td>
<td>Discuss the evolution of telepsychiatry and telehealth over the last 20 years.</td>
</tr>
<tr>
<td></td>
<td>Discuss the neuroscience of virtual reality and behavior change.</td>
</tr>
<tr>
<td></td>
<td>4.25 CE hours</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>OCT 6</th>
<th>Session II: Treatment Specific Problems</th>
</tr>
</thead>
<tbody>
<tr>
<td>1:00 pm-5:45 pm</td>
<td>Describe how VR can help create “corrective learning experiences” for individuals suffering from depression.</td>
</tr>
<tr>
<td></td>
<td>Describe how technical innovations in VR/AR allow healthcare professionals to create clinical experiences that are both more powerful and safer for everyone involved.</td>
</tr>
<tr>
<td></td>
<td>Discuss training programs currently in use to help professionals utilize VR simulations in the treatment of PTSD and other trauma-related problems.</td>
</tr>
<tr>
<td></td>
<td>Discuss how the use of immersive VR technology can help professionals establish a more powerful emotional connection with their patients.</td>
</tr>
<tr>
<td></td>
<td>4.25 CE hours</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>OCT 7</th>
<th>Session IIIA: Innovation Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>8:00 am-12:15 pm</td>
<td>Discuss how the utilization of a group learning experience such as the Innovation Lab could enhance learning experiences held at their own educational facilities.</td>
</tr>
<tr>
<td></td>
<td>Describe 3 unique ideas you got from attending the Lab at this conference, and how you might continue to develop one of them in your own research, teaching, or practice setting</td>
</tr>
<tr>
<td></td>
<td>List 3 ways that the delivery of healthcare in the future might reflect ideas shared during the Brainstorm Innovations Lab</td>
</tr>
<tr>
<td></td>
<td>Discuss one idea or VR-related technical innovation that you expected to be reported on in the Innovations Lab, but was not.</td>
</tr>
<tr>
<td></td>
<td>3 CE hours</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>OCT 7</th>
<th>Session IIIB – Advanced Applications I</th>
</tr>
</thead>
<tbody>
<tr>
<td>8:00 am-12:15 pm</td>
<td>Describe how VR/AR technology may be used more effectively/efficiently in the treatment of psychosis.</td>
</tr>
<tr>
<td></td>
<td>Describe how VR/AR technology may be used more effectively/efficiently in the treatment of ADHD and related clinical problems</td>
</tr>
<tr>
<td></td>
<td>Discuss 3 ways in which VR/AR interventions are being used in the treatment of</td>
</tr>
</tbody>
</table>
chronic pain.

- Describe the clinical relationship between pain management and addiction, and discuss research indicating that emerging VR technology may provide powerful ways to treat this common comorbid condition.

<table>
<thead>
<tr>
<th>OCT 7</th>
<th>Session IV – Advanced Applications II</th>
</tr>
</thead>
<tbody>
<tr>
<td>12:45 pm- 5:30 pm</td>
<td>- Describe at least 2 research articles articulating the promise of VR/AR interventions to treat chronic pain in children.</td>
</tr>
<tr>
<td></td>
<td>- Discuss VR interventions that have been designed to address the specific needs of burn pain patients.</td>
</tr>
<tr>
<td></td>
<td>- Describe what is meant by a “virtual human”</td>
</tr>
<tr>
<td></td>
<td>- Summarize one research protocol that suggests virtual humans may play a vital role in the treatment of PTSD</td>
</tr>
<tr>
<td></td>
<td>- List at least three clinically-relevant ideas presented/discussed during the closing panel on technology for pain management</td>
</tr>
</tbody>
</table>

4.5 CE hours

Take this opportunity to network with colleagues and to spend time with the faculty. Please contact us if we may be of assistance.

All faculty are affiliated with Stanford University School of Medicine unless otherwise noted.

COURSE DIRECTORS & PLANNING COMMITTEE

Alan K. Louie, MD
Course Director
Professor, Associate Chair, and Director of Education
Department of Psychiatry and Behavioral Sciences;
Course Content Validation Reviewer

Kim Bullock, MD
Co-Course Director
Clinical Associate Professor, Department of Psychiatry and Behavioral Sciences, Director
Virtual Reality-Immersive Technology Lab

Gowri Aragam, MD
Psychiatry Resident, Massachusetts General Hospital
MGH & McLean Hospital, Boston MA

Bruce Arnow, PhD
Professor, Department of Psychiatry and Behavioral Sciences

Kenechi Ejebe, MD
Psychiatry Resident, Icahn School of Medicine
Mount Sinai, NYC, NY

Walter Greenleaf, PhD
Visiting Scholar, Virtual Human Interaction Lab, Stanford

Gerry Piaget, PhD
Emeritus Adjunct Clinical Associate Professor,
Psychiatry and Behavioral Sciences

Cody J. Rall, MD
US Navy Psychiatrist
Rosalind Franklin University of Medicine and Science
Chicago, Illinois

Nina Vasan, MD
Psychiatric Resident, Department of
Psychiatry and Behavioral Sciences

Sepideh N. Bajestan, MD, PhD
Commercial Support Reviewer
Clinical Assistant Professor, Psychiatry and Behavioral Sciences
STANFORD FACULTY

Elias Aboujaoude, MD, MA  
Clinical Professor  
Department of Psychiatry and Behavioral Sciences

Jacob Ballon, MD  
Clinical Assistant Professor,  
Department of Psychiatry and Behavioral Sciences

Kim Bullock, MD  
Clinical Associate Professor; Department of Psychiatry and Behavioral Sciences, Director Virtual Reality-Immersive Technology Lab

Tom Caruso, MD, MEd  
Clinical Assistant Professor,  
Department of Anesthesiology

Anne Dubin, MD  
Professor, Department of Pediatrics  
(Pediatric Cardiology)

Kate Hardy, Clin. Psych. D  
Clinical Assistant Professor, Department of Psychiatry and Behavioral Sciences

Hadi Hosseini, PhD  
Instructor, Department of Psychiatry and Behavioral Sciences

Alan K. Louie, MD  
Moderator  
Professor, Associate Chair, and Director of Education  
Department of Psychiatry and Behavioral Sciences; Course Content Validation Reviewer

Sean Mackey, MD, PhD  
Redlich Professor,  
Department of Anesthesiology

Laura W. Roberts, MD, MA  
Chief, Psychiatry Service, Stanford Hospital and Clinics  
Katharine Dexter McCormick and Stanley McCormick Memorial Professor and Chairman, Department of Psychiatry and Behavioral Sciences

Sam Rodriguez, MD  
Clinical Assistant Professor,  
Department of Anesthesiology
Leanne Williams, PhD  
Professor, Department of  
Psychiatry and Behavioral Sciences

KEYNOTE SPEAKERS

Walter Greenleaf, PhD  
Visiting Scholar, Virtual Human Interaction Lab, Stanford

Giuseppe Riva, PhD  
Professor, ICE-NET Lab, Università Cattolica, Milan, Italy  
& ATN-P Lab, Istituto Auxologico, Milan, Italy

Albert "Skip" Rizzo, PhD  
Research Professor, Department of Psychiatry;  
Director, Medical Virtual Reality; University of Southern California

GUEST FACULTY

Jessica Bendinger, BA  
American Screenwriter

Patrick Bordnick, PhD, MPH, LCSW  
Dean, School of Social Work,  
Tulane University, New Orleans, LA

JoAnn Difede, PhD  
Professor, Psychology in Psychiatry,  
Cornell University, Ithaca, NY

Noah Falstein  
Freelance Game Designer & Producer

Diane Gromala, PhD  
Professor, School of Interactive Arts and Technology,  
Simon Fraser University, British Columbia, Canada

Hunter Hoffman, PhD  
Professor, Mechanical Engineering,  
University of Washington, Seattle, WA

David Thomas, PhD

EDUCATIONAL GRANTS
COMMERCIAL SUPPORT ACKNOWLEDGEMENT

*In-Kind Support*

This activity received in-kind support from the following:
1. High Fidelity, Inc. –Durable Equipment
2. PowisVR –Disposable Equipment

NON-COMMERCIAL IN-KIND SUPPORT ACKNOWLEDGEMENT

This activity received non-commercial support from University of Colorado Anschutz Medical Campus.
GENERAL INFORMATION

Conference registration desk hours: October 6th from 7:00AM – 5:45PM
October 7th from 7:00AM – 5:30PM

HOW TO RECEIVE CE/CME CREDIT
The ACCME requires that CME Providers have a mechanism in place to verify physician participation in CME activities. For this conference, please be certain to sign in each morning at the Registration Desk. Thank you!

NOTICE TO SOCIAL WORKERS
Social Workers attending the conference have additional sign in requirements. Please pick up the Social Worker Attendance Tracking form at the registration table upon arrival to the conference. This form must be completed in full and returned to conference staff at the conclusion of the conference in order to earn credit.

CME COURSE EVALUATION & CERTIFICATES
Participants will receive an email one business day after the course with a link to an online evaluation survey. Please complete the survey within 1 week from receipt of this email. Upon completion of the online evaluation survey and attesting to the number of hours of participation in the educational activity, you can download a printable certificate for your records.

CE COURSE EVALUATION & CERTIFICATES
Credit for other health care practitioners is offered through a joint-providership between Stanford CME and the Institute for Better Health (IBH), a local nonprofit educational organization. This conference is approved for CE credit hours for psychologists, nurses, social workers, and other health care professionals. A post-conference evaluation tool and CE certificates for CE participants will be available on the IBH website.

CE participants must attend the conference sessions in full, sign in daily, complete the online evaluation and submit the affidavit in order to access your CE Certificate of Completion.

For more information on how to complete the IBH evaluation and certificate process, please pick up the CE Handout available at the registration desk. Detailed instructions and important CE information will be outlined here. In addition, please visit http://www.iahb.org/stanfordce/ for a step-by-step walk through of how to complete the evaluation and certificate process.

If you experience difficulty, simply call the Institute for Better Health’s technical staff between 9AM and 6PM Eastern Time at (800) 258-8411 for assistance.

ACCREDITATION
The Stanford University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
CME CREDIT DESIGNATION

Physicians
The Stanford University School of Medicine designates this live activity for a maximum of 16.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Additional CE Credit Types
IAHB maintains responsibility for the educational activity offered and for following the standards and regulations for the organizations listed below. This conference is approved for up to 16.00 CE credit hours for psychologists, nurses, social workers, and other health care professionals. Sessions must be completed in full to obtain CE credit.

Nurses
The Institute for the Advancement of Human Behavior (IAHB) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Attendees may earn up to 16.00 credits.

IAHB is approved by the California Board of Registered Nursing, BRN Provider CEP#2672 for up to 16.00 contact hours.

Educators
IAHB has been approved by the Washington State Professional Educator Standards Board (WESPSB), a member of NASDTEC, as a Clock Hour Provider for Educators. Learners may claim one Clock Hour for each activity hour attended. Please contact your individual state boards for information regarding reciprocity and any additional requirements.

Psychologists
IAHB is approved by the American Psychological Association to sponsor continuing education for psychologists. IAHB maintains responsibility for this program and its content.

Social Workers
Institute for the Advancement of Human Behavior, #1426, is approved as a provider for social work continuing education by the Association of Social Work Boards (ASWB) www.aswb.org, through the Approved Continuing Education (ACE) program. Institute for the Advancement of Human Behavior maintains responsibility for the program. ASWB Approval Period: 3/16/2017 – 3/16/2020. Social workers should contact their regulatory board to determine course approval for continuing education credits. Social workers participating in this course will receive 1 clinical continuing education clock hour per hour attended. As an approved continuing education provider for the Texas State Board of Social Worker Examiners, IAHB offers continuing education for Texas licensed social workers in compliance with the rules of the board. License No. 3876; MC 1982, PO Box 149347, Austin, TX 78714, (512) 719-3521. Institute for the Advancement of Human Behavior SW CPE is recognized by the New York State Education Department’s State Board for Social Work as an approved provider of continuing education for licensed social workers #0091.

PLEASE NOTE: Many state boards accept offerings accredited by national or other state organizations. If your state is not listed, please check with your professional licensing board to determine whether the accreditations listed are accepted.
ACCESS ELECTRONIC PRESENTATION SLIDES
You may access PDF versions of the presentations of participating faculty online. To access these files, please go to the following website: https://app.2shoes.com/stanfordvrpsych.

SECURITY STATEMENT
Please do not leave any personal belongings unattended in the meeting room during breaks. We are not responsible for lost or stolen items.

CULTURAL AND LINGUISTIC COMPETENCY
California Assembly Bill 1195 requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. It is the intent of the bill, which went into effect July 1, 2006, to encourage physicians and surgeons, CME providers in the State of California and the Accreditation Council for Continuing Medical Education to meet the cultural and linguistic concerns of a diverse patient population through appropriate professional development. The planners and speakers of this CME activity have been encouraged to address cultural issues relevant to their topic area.

The Stanford University School of Medicine Multicultural Health Portal also contains many useful cultural and linguistic competency tools including culture guides, language access information and pertinent state and federal laws. You are encouraged to visit the portal: https://lane.stanford.edu/portals/cultural.html
