

# Autism Parent Support Group

Sponsored by the Stanford  
Autism Center at Packard  
Children's Hospital

Parents of children with autism face a unique set of challenges. The opportunity to connect with other families who have been through similar experiences can be a valuable form of support.

## Please join our monthly support group!

Topics for discussion will include:

- \* Advocating for your child
- \* Dealing with the impact on the entire family
- \* Navigating school and learning issues
- \* Investigating treatment options and resources

Please note that the support group is not intended to serve as therapy or other mental health services. NOTE: Adults only please. No childcare is provided and we cannot have unattended children in the building. Thank you.

**2017-18**  
**Meetings**

**Second**  
**Mondays from**  
**7:00 PM to 9:00 PM**

**September 11**

**October 9**
