STANFORD PIVOTAL RESPONSE TRAINING (PRT)
INTENSIVE PARENT EDUCATIONAL WORKSHOP

4-DAY COURSE FOR PARENTS
January 24th—27th, 2020

For parents of young children (2-5 years old)
with Autism Spectrum Disorder (ASD)

The program focuses on communication skills and is appropriate for families of children who have some verbal words, but do not yet use full sentences.

Faculty: Lynn Koegel, PhD; Bob Koegel, PhD; and Grace Gengoux, PhD

This workshop is designed to provide education and training on PRT components. We will meet in small groups of approximately four families. The workshop will be individualized so that communicative behaviors your child is lacking will be targeted. The following general areas will be addressed:

- How to implement the PRT motivational components
- Expanding the functions of communication through question-asking
- Understanding Fidelity of Implementation
- Improving socialization in children with ASD
- Procedures for decreasing disruptive or problem behaviors

Registration available at:
