

BECKMAN CENTER
Eighth Annual Symposium
on Molecular and Genetic Medicine

Apoptosis: Regulated Cell Death

October 22, 1997

Fairchild Auditorium, Stanford University

- 8:30 - 8:35 **Welcome**
Paul Berg
- 8:35 - 8:45 **Introduction**
Barbara A. Barres, Symposium Chair
- 8:45 - 9:30 **Robert Horvitz**: *Genetic Control of Programmed Cell Death in C. elegans*
- 9:30 - 10:15 **Hermann Steller**: *Control of Apoptosis in Drosophila*
- 10:15 - 10:45 **BREAK**
- 10:45 - 11:30 **Stanley Korsmeyer**: *Programmed Cell Death and the Regulation of Homeostasis*
- 11:30 - 12:15 **Shigekazu Nagata**: *Fas Death Factor*
- 12:15 - 1:25 **LUNCH**
- 1:30 - 2:15 **Arnold Levine**: *The Regulation of p53 Mediated Functions*
- 2:15 - 3:00 **Craig Thompson**: *Bcl-2: Guardian of the Cytoplasm?*
- 3:00 - 3:30 **BREAK**
- 3:30 - 4:15 **Douglas Hanahan**: *Mechanisms of Resistance to Apoptosis Acquired During Tumorigenesis*
- 4:30 - 5:30 **Panel Discussion**

Although the symposium is open and free of charge, please contact Christina Doering at Beckman Center, Stanford University to register.

Phone: (650) 723-9145

FAX: (650) 725-4951
