A Study for South Asians with Breast Cancer and their Families

**Hum Saath Hain**
Join us in our mission to better understand the unique cancer care needs of South Asians by using your voice

**WHO IS ELIGIBLE:**
- People of South Asian heritage (India, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka, and Maldives)
- People diagnosed with Stage 3 or 4 breast cancer in the past two years and their close family or friends
- People who speak English or any South Asian language

**WHAT PARTICIPANTS DO:**
- Share experiences through a ~1 hour survey and a ~1 hour interview
- Provide feedback on web-based support programs and test a new program that is tailored for the South Asian community
- Receive up to $100 for participating in the study
