

Symposium Program on Dose Selection for Cancer Treatments: May 12, 2017

Speaker: Tze L. Lai, Ph.D.
Professor of Statistics, Stanford
Co-Director, CISD

Title: *Innovative Adaptive Designs with Dose Selection in Oncology Trials*

Abstract:

After an overview of innovative adaptive designs with dose selection in oncology trials, we focus on early-phase trials, for which we modify some overarching ideas to tackle new opportunities and challenges offered by targeted therapies and combination therapies.
