

Stanford
Hospital & Clinics

**Cutaneous Lymphoma/T-cell Fellowship
Stanford Hospital & Clinics
Stanford University School of Medicine**

Start Date: July 1, 2024

The Department of Dermatology at Stanford University Medical Center is offering a 2 year fellowship in Cutaneous Lymphoma. This position will provide a unique and broad experience and will include leadership roles in patient care, clinical trials, and various research projects. The fellow will also collaborate with personnel from pathology, radiation oncology, medical oncology, and the Blood and Marrow Transplant program. Graduates from U.S. accredited medical schools are eligible to apply. Preference will be given to those who have completed a residency in internal medicine or dermatology, has an interest in an academic career, completed their internship year and has yet to undergo a formal residency.

The required items to apply are:

- USMLE transcripts (e.g., Steps 1, 2 CK, 2 CS and 3)
- Medical school transcript
- Three strong letters of recommendation
- Most recent Curriculum Vitae

Interested applicants should send a brief statement of their interests and career goals with the aforementioned items to:

Alesha Norton
Residency/Fellowship/Visiting Coordinator
derm_visitorsprogram@stanford.edu

Application deadline: date open until further notice
