The Marvin A. Karasek Lectureship in Dermatology at Stanford was established in 2018 by a generous gift from Stanford Dermatology Faculty Member, Professor Marvin A. Karasek, with a goal to advancing progress in cutaneous biology and medicine.

Jean Tang, M.D., Ph.D., is a Professor of Dermatology and her research focuses on genetic skin diseases such as Basal Cell Nevus Syndrome and Epidermolysis Bullosa. She studies new ways to treat and prevent NSMC and melanoma. Dr. Tang has led or co-led the conduct and completion of 6 investigator initiated clinical trials in BCC and EB. She received her MD/PhD from Stanford (Biophysics), completed her dermatology residency at Stanford, and then went to UCSF for a 3 year post-doc in mouse genetics, while simultaneously pursuing formal coursework in biostatistics, epidemiology, and clinical trial design in the KL2 CTSI program.

Please stay tuned for RSVP link & details.
