Celebrating the Inaugural Dr. Earl Ramsey Claiborne Leadership in Diversity Lecture

LECTURER BIO

Joyce Sackey, MD, FACP
Chief Equity, Diversity, and Inclusion Officer, Stanford Medicine
Associate Dean, Stanford University School of Medicine
Clinical Professor of Medicine, Primary Care and Population Health

Dr. Joyce Sackey is an accomplished leader of diversity and inclusion in higher education. She joined Stanford Medicine as the inaugural chief diversity and inclusion officer (CDIO) in 2022.

Prior to joining Stanford Medicine, Sackey spent 14 years at Tufts University, where she held roles as the dean for multicultural affairs and global health at the school of medicine and, more recently, as the associate provost and chief diversity officer for the health sciences schools. As Stanford Medicine’s CDIO and associate dean, Sackey oversees enterprise-wide strategies and efforts to advance diversity, health equity and inclusion, and will help implement the recommendations issued by Stanford Medicine’s Commission on Justice and Equity. Sackey also supports and unifies existing diversity, equity and inclusion efforts underway at the Stanford School of Medicine, Stanford Health Care, Stanford Medicine Children’s Health, Stanford Health Care Tri-Valley and Stanford Medicine Partners.

Sackey grew up in Ghana, moving to the United States after high school to follow her love of science at Dartmouth College. But what drove her to medicine stemmed from an early realization she had as a teenager volunteering in her local community. There were stark differences in medical and health care access between the city where she grew up and the one where she attended school, just an hour away.

That experience fueled her passion for medicine, and after graduating with a degree in biology, she stayed at Dartmouth to pursue her medical training at Geisel School of Medicine. After graduating in 1989, Sackey continued her training at Harvard Medical School’s Beth Israel Deaconess Medical Center. As a resident, Sackey chose a specialty in primary care, internal medicine, intent on building lasting relationships with her patients, particularly those who lived in underserved communities. She continued her practice for 20 years as a physician and educator at Beth Israel Deaconess Medical Center and Harvard Medical School until she was recruited to Tufts University to lead their global health and DEI efforts.
Wednesday, May 17th, 2023

Dinner Celebration
5:30 - 7:30pm
St. Michael’s Alley
140 Homer Avenue
Palo Alto, CA 94301

Thursday, May 18th, 2023
