RESEARCH INSTITUTE
SEMINAR SERIES**

**Stanford MCHRI Biodesign Faculty Fellows:
Designing Innovations to Improve Health and Health Care**

Monday, August 17, 2020 | 12:00pm - 1:00pm

STANFORD BYERS CENTER FOR
BIODESIGN

SPEAKERS

With introductions by Associate Director of Biodesign Faculty Fellowship, Ryan Van Wert, MD, FRCPC, Clinical Assistant Professor of Medicine (Pulmonary and Critical Care Medicine), and Assistant Director of Biodesign Faculty Fellowship, Janene Fuerch, MD, Clinical Assistant Professor of Pediatrics (Neonatal & Developmental Medicine).

MCHRI Biodesign Faculty Fellows

- Ritu Asija, MD - Clinical Associate Professor, Pediatrics (Cardiology)
- Yael Gernez, MD, PhD - Clinical Assistant Professor, Pediatrics (Immunology and Allergy)
- Anita Honkanen, MD - Clinical Professor, Anesthesiology, Perioperative & Pain Medicine
- Kunj Sheth, MD - Assistant Professor, Urology

The Stanford Maternal and Child Health Research Institute annually sponsors Stanford Byers Center for Biodesign Faculty Fellowships to spur innovations in maternal child health and offer faculty the opportunity to apply their knowledge to advance care delivered through Stanford Children's Health. Over an 8-month period, participants learn about the process of identifying innovation opportunities, inventing cost-effective solutions, and preparing to implement those inventions to improve patient care. At this talk, learn about the education and training opportunities from the Center for Biodesign and the 2019-2020 MCHRI Biodesign Faculty Fellows who will present rapid pitches of their projects that address health challenges and needs.
