

SCHEDULING

Core Clerkships, Sites, and Services

In MedHub, clerkships are organized by a core clerkship and site specific clerkships. Within sites, Clerkship Coordinators create services to schedule students and faculty to in order to assign evaluations.

Student Administrators enroll students and Clerkship Directors to the Core Clerkship.

Clerkship Coordinators enroll students and faculty to the Site Specific clerkships. If a Site is missing from the list, Clerkship Coordinators should contact Kiran Brar. After students and faculty are enrolled in Sites, Course Coordinators create services and then enroll students, faculty, and residents.

INSTRUCTIONS – Enrolling Faculty to a Clerkship Site

- Select the appropriate Core Clerkship from the right side drop down
- From the Home page, under User Management, select the faculty member
 - You can also click the magnifying glass to search for a faculty member by typing in their name

TIP

Look here to double check that you're in the correct clerkship
