

# DO YOU WANT TO HELP INDIVIDUALS WITH SOCIAL DEFICITS?

## Healthy Volunteers Needed for Research Study

Researchers at Stanford University are currently recruiting healthy individuals to participate in a research study about individuals with hypothalamic-pituitary disorders to better understand the underlying causes of social impairments in individuals with these disorders.

In order to participate in this research study you or your child must:

- *Be between the ages of 6 and 65 years*
- *Be in good medical health & not have a neuropsychiatric disorder*
- *Be willing to provide a blood sample*
- *Be willing to complete cognitive and behavioral tests*
- *Be willing to complete questionnaires*
- *Child participants only: have a parent or caregiver who is willing to complete questionnaires*

You will be reimbursed \$50 for fully completing this study.
