

DEPARTMENT OF PATHOLOGY

ASSISTANT, ASSOCIATE OR FULL PROFESSOR OF HEMATOPATHOLOGY

(Medical Center Line Professoriate or Clinician Educator Line)

The Stanford Department of Pathology seeks an outstanding hematopathologist for appointment at the rank of Assistant, Associate, or Full Professor in the Medical Center Line or Clinician Educator Line. Stanford Medicine is committed to lead the biomedical revolution in precision health, and recognizes that success in achieving this vision will require world-class innovation and method development for patient care across all aspects of pathology. The Department of Pathology fully embraces this inspired vision as we collaborate closely with our colleagues in Stanford Health Care, Stanford Children's Health, and Stanford University School of Medicine. We are seeking experienced and ambitious colleagues who are enthusiastic about our vision and committed to our collaborative approach. If you are interested in advancing precision health at one of the greatest universities in the world, situated in the most dynamic and entrepreneurial region of the U.S., and currently undergoing major inpatient and outpatient expansions, then join us.

The major criteria for appointment in the Medical Center Line are excellence in clinical care, clinical teaching, and scholarly activity that advances clinical medicine, and the major criteria for appointment in the Clinician Education Line are excellence in clinical care and clinical teaching. There are many opportunities for MCL faculty to develop independent or collaborative programs in clinical, translational or basic research. Clinician Educators are encouraged to participate in research programs, as their clinical and educational responsibilities permit. Faculty rank and line will be determined by the qualifications and experience of the successful candidate.

Successful candidates will join the faculty in the Department of Pathology, which currently includes a Nobel laureate, multiple members of the National Academies of Sciences and Medicine, and many other investigators with national and international distinctions. In addition to its outstanding research program, the Department of Pathology is responsible annually for over 3.8 million laboratory tests and 60,000 anatomic pathology specimens, and educates outstanding graduate students, residents, and fellows.

Requirements for the position include an MD, PhD, or MD/PhD, board certified in Anatomic Pathology and/or Clinical Pathology and Hematopathology, or equivalent qualification and must hold or acquire a license to practice medicine in the State of California. Hematopathology is undergoing major expansions across all aspects of patient care including revolutionary therapies and proteogenomic technologies. Expertise and experience in all aspects of hematopathology diagnoses and flow cytometry are highly desirable.

Applicants should submit his or her curriculum vitae, cover letter, and brief description of plans for future research and names of five references in Interfolio apply.interfolio.com/66833

Letters should be addressed to Thomas J. Montine, MD, PhD, Chair, Department of Pathology, by November 30, 2019. All applications will be given full consideration until the position has been filled.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.
