

Stanford University School of Medicine, Department of Pathology  
300 Pasteur Drive, Room L235, Stanford, CA 94305-5324

**Dear Applicant,**

Thank you for your interest in applying for the 2024-2025 Gastrointestinal & Hepatobiliary Pathology Fellowship at Stanford University, School of Medicine. We are currently accepting applications for the Gastrointestinal & Hepatobiliary Pathology Fellowship Program for the period of July 1, 2024 through June 30, 2025.

**Please note, the following documents are required upon application submission:**

- Gastrointestinal & Hepatobiliary Pathology Fellowship Application Form
- Current Curriculum Vitae
- Letter of Intent - (personal statement/why you want to do this fellowship)
- List of 3 References – (provide degrees, titles, phone, address, and email address)
- Three Letters of Recommendation addressed directly to: Dr. Teri Longacre, Director of Gastrointestinal & Hepatobiliary Fellowship Program

**Please submit application & required documents to: [phyllis2@stanford.edu](mailto:phyllis2@stanford.edu). Letters of Recommendation are to be sent directly by the office of the referee providing the recommendation. Letters of Recommendation may be emailed directly to: [phyllis2@stanford.edu](mailto:phyllis2@stanford.edu).**

Interviews for the positions will be conducted beginning in Mid-July 2022. We ask that you have all your application materials submitted by July 15, 2022. Incomplete application packets will not be considered.

The Gastrointestinal Pathology Fellowship Program requires at least three year's prior training in anatomic clinical pathology. Our program is a one-year fellowship (ACGME-accredited) that provides advanced, focused and intensive training in diagnostic gastrointestinal, pancreatic and hepatobiliary pathology.

The program includes specific rotations encompassing frozen section, sign out of consultation material (including immunohistochemistry and other special diagnostic techniques), "junior" attending sign-out, transplant, pancreas and hepatobiliary pathology, research, and elective time. Elective time is designed to pursue additional subspecialty training in molecular pathology, cytogenetics, or other areas depending on fellow interest and/or career goals. Fellows participate in departmental and interdepartmental conferences, as well as medical student and resident teaching. Departmental resources and support are available for clinicopathologic and translational research projects.

Stipends depend upon the postdoctoral level of training and are set by Stanford Health Care.

Please be aware that the Medical Board of California requires all U.S. and Canadian graduates to be licensed in California before they begin their 25th month of approved post graduate training, if the training is in a California institution. This means that if selected you are required to obtain a California medical license before starting the fellowship program. You should allow at least nine months to complete the entire process of securing a California medical license. Please contact the licensing board to request an application.

For non-U.S. and Canadian citizens and residents, the selected applicant will be required to obtain a J1 visa. H-1 visas are not sponsored. For more information on J1 visas, please go to: [j1visa.state.gov](http://j1visa.state.gov)

**Sincerely,**

**Teri A Longacre, MD**

Richard L Kempson Endowed Chair of Surgical Pathology  
Director, Gastrointestinal Pathology  
Director, Gynecologic Pathology

**Phyllis Bettencourt**

Administrative Associate
