Associate or Full Professor of Medicine (Primary Care and Population Health-47314)  
Stanford Medicine

The Division of Primary Care and Population Health in the Department of Medicine at Stanford University is seeking to fill a leadership position in LGBTQ+ Health. The inaugural Director of the Adult LGBTQ+ Health program should be an accomplished clinician-administrator or clinician-investigator-administrator who would fulfill criteria for appointment at the level of Associate or Full Professor in the University Medical Line or as Clinical Associate or Clinical Professor in the Clinician Educator Line. The position entails a combination of clinical practice, clinical research, education, and program administration depending on the qualifications of the successful candidate. Applicants must have an MD or DO degree with Board Certification in Internal Medicine or Family Medicine.

Stanford Medicine’s newly initiated Adult LGBTQ+ Health program is a unique and comprehensive multi-disciplinary approach to improve the health and well-being of the LGBTQ+ communities, building on, and partnering with a long standing and successful adolescent LGBTQ+ program led by the Department of Pediatrics. The adult program will be a national model in clinical care, research, education, and advocacy. The Director will work with the School of Medicine and administrative leadership from both Stanford Health Care and Stanford Children’s Hospital (Lucile Packard Children’s Hospital) as well as the Medical Director from LPCH to co-lead the LGBTQ+ Health Program and develop, improve, and coordinate LGBTQ+ programming spanning all of Stanford Medicine.

The major criteria for appointment for faculty in the University Medical Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill. The major criteria for appointment in the Clinician Educator Line is excellence in the overall mix of clinical care, teaching, administration and/or scholarship appropriate to the programmatic need the individual is expected to fulfill. Faculty rank and line will be determined by the qualifications and experience of the successful candidate.

The candidate will be expected to contribute to our mission through education and teaching including training and mentoring of residents, fellows and other trainees in graduate programs associated with the Stanford University School of Medicine.

The Division of Primary Care and Population Health has 150 clinical and research faculty, and includes sections of geriatrics, palliative care, employer-based primary care, and general primary care, as well as residency and fellowship training programs and several dedicated research centers.

The Department of Medicine, School of Medicine, and Stanford University value faculty who are committed to advancing diversity, equity, and inclusion. Candidates may optionally include as part of their research or teaching statement a brief discussion of how their work will further these ideals.

Interested candidates should submit a copy of their curriculum vitae, a cover letter outlining their interests and the names of five references here: http://facultyapplication.stanford.edu/

*Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law.
