

Pediatric Cardiology Fellows' Boot Camp

May 30 – June 1, 2020

Sponsoring Institutions:

Incoming Fellows from various programs come together for a weekend of hands-on learning, including sessions with The Stanford Virtual

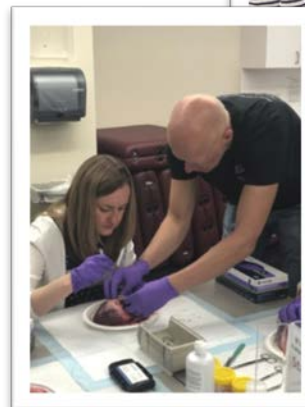

Come learn and prepare for fellowship...

The Stanford Pediatric Cardiology Fellows' Boot Camp is now accepting applications from incoming fellows from all training programs throughout North America. Our highly-rated immersion and simulation-based curriculum has been shown to improve readiness for fellowship*. The Boot Camp includes:

- Cardiac Anatomy: Gross Anatomy Dissection
- Echocardiography: High-fidelity Transthoracic Echo Simulation, Basics of Echo Interpretation
- Cardiac Intensive Care: Defibrillator Training, Team Resuscitation Simulation and Debriefing, Access/ Procedure Stations
- Electrophysiology: Arrhythmia Recognition and Treatment, Pacemaker interrogation, Temporary Pacemaker Programming, Telemetry Navigation
- Pulmonary Hypertension: Management & Treatment
- Heart Failure: Hands-on VAD Training
- Interventional Cardiology: Hemodynamic Calculations, Fluoroscopy/Catheter Manipulation Simulation
- Cardiac Surgery: Primer on Cardiopulmonary Bypass

High-fidelity simulation education from world-renowned Stanford cardiologists and cardiac surgeons

All travel, hotel, meals and registration fees provided for incoming first year fellows! Only 40 spots are available, so [apply](#) today!
