

# Restarting Research in Pediatrics

<https://med.stanford.edu/pediatrics/research/covidres.html>

Our Guiding Principles:  
Safety &  
Transparency

## CLINICAL RESEARCH

Allowable non-Covid Clinical Research Activities?

1. Essential clinical trials or clinical research *not* associated with a clinical visit at SCH/SHC that involve in-person human subjects where cessation of treatment could negatively impact patient outcomes, safety or care
2. In-person human subjects clinical studies associated with a clinical/medical visit in the clinical setting only (SCH/SHC)
3. In-person human subjects clinical studies associated with a clinical/medical visit in the clinical setting (SCH/SHC Clinics) AND in another SoM or non-SoM building on the same day or different day as the clinical visit

Yes

Complete [Pediatrics NON-COVID-19 Human Subject Research](#)

Approval from Mary Leonard (all) and SADR (1 & 3 only). SADR approval facilitated by Mary Chen.

Additional patient-facing staff needed, e.g. clinical research coordinator (CRC)?

No

Yes

CRC referred to COVID-19 testing, sends negative test to Mary Chen.

CRC approved for patient-facing work

- COVID-19 Hygiene Best Practices training
- Daily Health Check app use / ORMS updated
- Required PPE and safe distancing

Proceed

Downstream lab-based or non-patient facing research activities at Stanford?

Yes

## BASIC RESEARCH

Allowable Essential Basic Research?

- Conduct on campus research that cannot be done remotely
- Work remotely as much as possible
- Notify department of request to re-start basic research on campus

Approval from Mary Leonard

- Create Standard Operating Procedures (SOP) for group
- Contact John Whitin for review of lab operations
- Contact APB, VSC, EH&S as necessary
- Inform building manager
- Contact Division Manager to add staff, post-docs, fellows to ORMS

- COVID-19 Hygiene Best Practices training
- Health Check app use / ORMS updated
- Adhere to Lab level SOP
- Required PPE and safe distancing
- Work with neighboring groups to follow Stage 2 guidelines

Proceed
