- Biodesign
- Cardiology
- Critical Care Medicine
- Development/Behavioral Pediatrics
- Gastroenterology
- General Pediatrics
- Hematology/Oncology
- Hospitalist Medicine
- Infectious Disease
- Neonatology
- Nephrology
- Neurology
- Radiology
- Pulmonology
- Residency Program
- Urology
Congratulations

Alison Marsden

- National Science Foundation Grant: The SimCardio open source multi-physics cardiac modeling package
Congratulations

🌟 Tandy Aye

- Elected as the new Secretary/Treasurer of Council of Pediatric Specialties (CoPS)
- Chair, Committee for Program Directors for the Pediatric Endocrine Society
Congratulations

• Lauren Destino, Jennifer Everhart, Becky Blankenburg

  • John Eisenberg Award for National Level Innovation in Patient Safety and Quality awarded from The Joint Commission and the National Quality Forum for IPASS Handoff Work
The Purposeful University

After celebrating Stanford's 125 years of innovation in education and research, now is the time to ask what new challenges and opportunities lie before us in the years ahead. Working together to develop a bold vision for Stanford's future, guided by our purpose and courage, our potential is unlimited.
What's your idea?

The Academic Mission

Education  Research  Clinical Care  Community Engagement

Finances
Academic Affairs
Mark Kay, MD, PhD
Associate Chair (Basic Research)

Gary Shaw, PhD
Associate Chair (Clinical Research)
Associate Chairs of Research: Activities

**Strategy**
- Assist Department Chair to define strategic research direction

**Recruitment**
- Participate in assessment and recruitment of all research intensive faculty
- Work with Associate Chair of Education to attract MD-PhD residents

**Mentoring and Research Education**
- Participate as scholarly concentration leader in residency program
- Develop and teach Fellows Research Club with Associate Chair of Education
- Participate in selection of graduating fellows for the pipeline Instructor support
- Mentor K-award to R-award working group
- Advise early and mid career faculty in conjunction with the Associate Chair of Academic Affairs
Associate Chairs of Research: Activities

**Infrastructure**

- Develop new research infrastructure (e.g. Department of Pediatrics Research Statistics Unit)
- Provide oversight on investment in common equipment expenditures
- Advise on space allocations (wet and dry)
- Develop research opportunities in the Department and School of Medicine (e.g. PCHA – UHA)

**Administration**

- Develop and conduct research faculty annual bonus program
- Co-organize the Department of Pediatrics Annual Research Retreat
Associate Chairs of Research: Initiatives

- Collaborate with Department research management team to identify needs and improve research process for pre- and post-awards
- Develop large grants (P and U grants) across Departments
- Develop curriculum on research methods and basic statistics
- Develop library and boilerplate text for career development awards with Director of Fellowship Research
Associate Chairs of Clinical Affairs

🌟 Christy Sandborg, MD
Associate Chair (Hospital Clinical Affairs)

🌟 Scott Sutherland, MD
Associate Chair (Faculty Clinical Affairs)
Associate Chair of Hospital Clinical Affairs

**ENHANCE ALIGNMENT OF DEPARTMENT OF PEDIATRIC FACULTY WITH STANFORD CHILDREN’S HEALTH OPERATIONS AND STRATEGIC INITIATIVES**

- Ensure faculty engagement in major operational and strategic initiatives, integrating the 3 missions and outcomes, quality and safety
- Maintain the Medical Direction infrastructure, ensuring medical oversight and authority in every clinical area to lead quality and improvement efforts.

**REPRESENT AND ADVOCATE FOR THE CLINICAL INTERESTS OF THE DEPARTMENT OF PEDIATRICS FACULTY AND STAFF**

- Ensure Stanford Children’s Health focus on clinical excellence, safety, quality and affordability
- Educate Stanford Children’s Health leadership in the critical role of physicians and physician leaders in managing a complex clinical enterprise

**LEVERAGE THE CLINICAL ADVISORY COMMITTEE AS CRITICAL LEADERS IN THE DEPARTMENT, HOSPITAL ENTERPRISE, AND SCHOOL**

- Develop yearly plans of work to meet current issues facing the Department—past examples include:
  - Packard at El Camino utilization
  - Medical home
  - Clinician Educator Task Force and Advisory Committee—resulted in CE mentoring plan and promotion planning support
  - Physician wellness
Next Steps with New Associate Chair of Faculty Clinical Affairs

• New and improved clinical affairs!
  – New data---Task Force reports, Wellness Survey, Climate Survey, etc.
  – New blood---new insights, experiences, vision
  – New technology---crowdsourcing to validate ideas and approaches
  – New team---renewed Clinical Advisory Committee
  – New ideas and plans---TBD

• Scott and I will take 1-2 months to fully digest information and reach out to you for feedback and ideas
Associate Chair of Policy & Community Engagement

Lisa Chamberlain, MD
Goal
To create and coordinate strategic policy and community engaged initiatives so all children thrive.

Why now?
Opportunity to lead nationally amidst unprecedented income inequalities, shifting health care reform efforts, and increased emphasis on population health outcomes.
Associate Chair of Policy & Community Engagement: Preliminary Tactics

• Liaison with local government and elected officials to bridge relevant evidence and data supporting the needs of children and families
• Coordinate & lead strategic initiatives through community engaged partnerships
• Bridge efforts of Packard’s Chief Government and Community Relations Officer work with the Department of Pediatrics
• Participate in recruiting top tier fellowship and resident applicants by providing a hub of dynamic child health policy
• Providing ongoing, nationally recognized pediatric advocacy training for all residents
• Further developing a coherent pediatric voice unifying residents, fellows, faculty and staff via the Rapid Response Team initiative
• Linking to Stanford University centers of shared interest, such as the John Gardner Center for Youth and Their Communities and the Haas Center for Public Service.
• Commence strategic planning process to improve local pediatric population health

• Delineate opportunities to integrate activities across education, research and clinical care missions

• Continue to map strategic alliances within and beyond the School of Medicine
Associate Chair of Academic Affairs

Eric Sibley, MD, PhD
Faculty Appointment and Promotion

- Assist the Chair in the administration of the A&P process
- Meet with Division Chiefs and Faculty to discuss appropriate timing and prospects of actions
- Serve as *ex officio* member of the A&P Committee
- Review with the Chair the recommendations of the A&P Committee regarding actions
- Assist the Chair in revising, as appropriate, A&P policies and procedures
Associate Chair, Academic Affairs

**Faculty Recruitment and Development**

- Participate in faculty searches and assure that equal consideration has been given to candidates from outside institutions, from a diversity of ethnic and cultural backgrounds, and that both male and female candidates have been considered.

- Work collaboratively with the Pediatric Mentoring Programs to assist and advise faculty with regards to their career development.
Appointment and Promotions Committee

- **Chair**: Louanne Hudgins, M.D. (Medical Genetics; Professor, MCL)
- Steven Alexander, M.D. (Nephrology; Professor, MCL)
- Manuel Amieva, M.D., Ph.D. (Infectious Diseases; Associate Professor, UTL)
- Michael Cleary, M.D. (Pediatric Cancer Biology; Professor, UTL)
- Ronald Cohen, M.D. (Neonatal and Developmental Medicine; Clinical Professor)
- Anne Dubin, M.D. (Cardiology; Professor, MCL)
- Susan Hintz, M.D. (Neonatal and Developmental Medicine; Professor, MCL)
- Michael Jeng, M.D. (Hematology, Oncology; Professor, MCL)
- Joseph Kim, M.D. (Hospital Medicine; Clinical Associate Professor)
- Tzielen Lee, M.D. (Rheumatology; Clinical Associate Professor)
- Alison Marsden, Ph.D. (Cardiology; Associate Professor, UTL)
