

Primary Care Rotation 5-Minute Rotation Summary/Expectations

Rotation Name: Primary Care A and B

Contacts:

- Rotation Director: Elizabeth Stuart - aestuart@stanford.edu
- Rotation Liaison: Jill Krissberg – jkrissbe@stanford.edu

Rotation Goal:

- To provide a focused experience in acute care, primary care and community pediatrics
 - PC-A focuses on acute care
 - PC-B focuses on health supervision
 - Both rotations emphasize patient-centered communication and elements of community pediatrics, including screening and community referrals to address social determinants of health.

Facilities and Locations:

Gardner Packard Children’s Health Center (ACC)
3351 El Camino Real, Suite 100
Atherton, CA 94027
(650) 362-3500

- Park in the garage underneath the building; street level parking is for patients only.
- Check in at the front desk and ask one of the staff to let you in to the ACC side

Complex Primary Care Clinic (CPCC)

730 Welch Road, first floor
Palo Alto, CA 94304

Contact: David Bergman, MD (see individual rotation schedule for details)

Healthy Lifestyles Clinic at VHC Tully

500 Tully Road, San Jose, CA 2nd floor Pediatrics.

Contact: Antonia Charles, MD (see individual rotation schedule for details.)

Continuity Clinic: Continuity Clinic sessions are held at residents’ regular continuity site during PCB. GPCHC residents will have extra clinics sessions listed in AMION and NextGen during PCB.

Schedules:

- Both PCA and PCB residents will attend their regular continuity clinics per AMION.
- The schedules shown below reflect the general schedule for each block. Individual PCB schedules will be distributed prior to the start of each rotation.
- Report times for ACC apply to both PCA and PCB residents.

Report Times

- ACC Monday-Thursday: 8 AM; Friday 8.30 AM
- CPCC start time: 8.30 AM
- Healthy Lifestyles: 8.30 AM

Weekly ACC schedule (applies to both PCA and PCB residents)

	Monday	Tuesday	Wednesday	Thursday	Friday
0800	Teaching	Teaching	Teaching	Teaching	
0830	Acute Care Clinic	Acute Care Clinic	Acute Care Clinic	Acute Care Clinic	Teaching
0900					ACC
1230	Teaching	Teaching	Teaching	Teaching	Teaching
1300 – end (usually around 5 p.m.)	Acute Care Clinic	Acute Care Clinic	Acute Care Clinic	Acute Care Clinic	Acute Care Clinic

PCB template schedule

- Week 1 and Week 2 may be reversed, depending on rotation staffing
- Individual schedules will be distributed before the start of each rotation

PM	Post call or Continuity	ACC	Continuity	ACC	Continuity

	Monday	Tuesday	Wednesday	Thursday	Friday
AM	Post call or Continuity	CPCC	Continuity or Teen Van	Healthy Lifestyles	Continuity
PM	Post call or Continuity	Continuity	Continuity	Continuity	Continuity

Patient Care

- PCA and PCB residents will see patients on the Acute Care (ACC) schedule while in ACC.
- Wednesday afternoons in ACC will include 3 scheduled visits for evaluation of school, learning, or developmental concerns – or follow up of ADHD. On the second and fourth Wednesday of the month, a Developmental Behavioral Pediatrics fellow will be available to informally consult and provide teaching.

Additional responsibilities

- Morning teaching sessions
Morning teaching sessions are generally presented by residents and students. The resident team should work together to establish the morning teaching schedule for each two-week block. (A sample schedule is provided below.) If patients arrive and are roomed during morning teaching, one member of the care team should break away to see the patient.

SAMPLE MORNING TEACHING SCHEDULE:

Week 1

Monday: Orientation
Tuesday: Loutit - sports physicals
Wednesday: PCA Junior
Thursday: Student 1
Friday: Intern 1

Week 2

Monday: Any
Tuesday PCB Junior or senior
Wednesday: Community interns: poverty
Thursday: Student 2
Friday: Intern 2

- PCA junior:
The PCA junior resident is primarily responsible for overseeing patient follow-up, including lab and study results, phone calls to patients, and monitoring of return visits to optimize continuity of care. Operationally, this involves management of the ACC follow-up box.
- PCB junior and senior:
The PCB junior and senior are responsible for assisting the PCA junior in their duties and taking on those responsibilities in their absence (continuity clinic, etc).
