We are seeking applications for a full-time faculty member in the Clinician Educator line to join our Sport Psychology team. The position is the result of a collaboration between Psychiatry & Behavioral Sciences and the Department of Athletics, Physical Education, and Recreation (DAPER), which have a demonstrated commitment to student-athlete mental health and well-being, provided mental health resources, and shown consistent support. The Assistant Director will work as a member of the Stanford Sport Psychology team, which provides comprehensive sport psychology services to Stanford's 900+ student-athletes and 36 varsity teams. This is a full-time clinical position with an academic appointment in the Department of Psychiatry & Behavioral Sciences at the Stanford School of Medicine. Salary is competitive and contingent on qualifications, experience, and rank.

Reporting to the Director of Sport Psychology for Athletics, the Assistant Director of Sport Psychology for Athletics supports the holistic development of Stanford varsity student-athletes by providing culturally appropriate, specialized sport psychology services that support mental health, wellness, and optimal performance. The Assistant Director is charged with developing mental health programming, outreach, and strategy, and also will have training and supervision responsibilities within our postdoctoral Sport Psychology Fellowship Program, as well as with other multidisciplinary trainees. Additional responsibilities will be based on interest, availability, and program needs.

**Essential job responsibilities** include: (a) providing individual counseling, brief psychotherapy, care coordination, and performance psychology services to a wide range of student-athletes; (b) providing team-based consultation and outreach services in various applied settings that promote mental health, wellness, and optimal performance; (c) developing outreach goals and strategy for targeted prevention and early intervention that support the mental health and well-being of Stanford student-athletes on a department-wide basis; (d) providing individual and group supervision; and (e) engaging in multidisciplinary clinical consultation.

Qualified candidates must be licensed psychologists in good standing with excellent clinical, supervisory, interpersonal, and organizational skills. California licensed preferred. If currently licensed in another state, must be California license-eligible as a psychologist. Specialized training in sport psychology, kinesiology and/or CMPC is strongly preferred. They must operate in a highly ethical manner with timely completion of all required documentation in a confidential electronic health record. Flexibility, initiative, accountability, and ability to work in a fast-based collaborative environment are essential to this position. Experience working with college students and/or student-athletes from diverse backgrounds also is essential. Minimum of two years of experience in intercollegiate athletics and/or working with elite athletes strongly preferred.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching, and clinical missions.

**Interested candidates should send a cover letter, current curriculum vitae, and three references to Kelli Moran-Miller, PhD, Director Sport Psychology for Stanford Athletics at kmoranmiller@stanford.edu (letters of reference can be sent directly if desired)**
