The Division of Child and Adolescent Psychiatry at Stanford University is seeking a full-time faculty members in the Clinician Educator line to provide clinical care and teaching in our outpatient child and adolescent psychiatry clinics. The chosen candidate will serve as an attending physician in the capacity of a super-clinician, providing clinical service including initial evaluations, consultation, and evidence-based treatment to children and adolescents in the outpatient clinics. Rank and salary will be commensurate with experience. The primary assignment will be in two specialty clinics within the Child and Adolescent Outpatient Clinics including the General Assessment, Intervention, and Treatment (GAIT), ADHD. Stanford Medicine Children’s Health provides exposure to a wide range of scholarly and community outreach activities including clinical working groups, parent education and support activities. The super-clinician will focus primarily on providing clinical care.

Eligible physician candidates must have a medical degree or equivalent degree, completed training in General Psychiatry and subspecialty training in Child and Adolescent Psychiatry, be board certified or board eligibility in General Psychiatry, and possess or be fully eligible for a California medical license.

Rank and salary will be commensurate with experience.

General Psychiatrist Base Pay Range
Clinical Assistant Professor: $230k - $242k
Clinical Associate Professor: $251k - $263k
Clinical Professor: $280k - $340k

This position commands a competitive salary enhanced by an attractive benefits package, including but not limited to competitive compensation including home purchase programs, bonus programs, and vacation time, as well as comprehensive benefits include health/dental/vision, paid malpractice, and 403(b) plans.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university’s research, teaching and clinical missions.

Interested candidates should send a cover letter and current curriculum vitae via e-mail to:
