BioAIMS Mission

Check-in

- The Biomedical (Biosciences) Association for the Interest of Minority Students (BioAIMS) is an inclusive organization that provides a welcoming home for all Biosciences students at Stanford to celebrate their identities--especially those that have traditionally been marginalized in academia.
- We actively build this community through cultural celebrations, peer support, and career development programming. To address the issues facing our communities, we engage in social justice advocacy and local outreach initiatives.

BioAIMS Leadership Goals for 2022-2023

Check-in

1. Establish a clear, bi-directional route of communication between students and OGE
2. Bring together DEI groups that have formed in the past year for regular meetings to share strategies and frustrations
3. Regularly check in with community and advocate for student needs
4. Model an inclusive and antiracist community and help people build the tools to bring those spaces elsewhere
5. Focus on community building
6. Re-start off campus outreach initiatives

GET \$\$ FROM US

Got a great idea for an event that is in line with our mission but need funding to do it? We will continue to fund the community grants program to enable nimble funding of low- to medium-budget student-initiated projects.

How this works

- We have a fixed pot of \$\$ to fund this program; applications will be reviewed on a rolling basis
- We'll let you know in 72 hours if we can fund your event and be in touch to work on logistics
- Events will be funded at the discretion of the BioAIMS officer team
- We encourage you to try to obtain funds “matching” from your program or a relevant partner to stretch our funds and impact further
 - Grants \$100-500 offered, form [here](#).
