

# IMMUNOLOGY SEMINAR SERIES

Tuesdays at 4:30-5:30PM LKSC LK130

September 27, 2022 **\*\*CANCELED\*\***

**Michael Birnbaum, PhD** | Assistant Professor, Department of Biological Engineering at MIT  
*Decoding and rewiring immunity*

October 4, 2022

**Fernando Camargo, PhD** | Professor of Stem Cell and Regenerative Biology at Harvard University  
*Ancestry and function in the hematopoietic system*

October 6, 2022

**Rong Lu, PhD** | Associate Professor of Stem Cell Biology and Regenerative Medicine, Biomedical Engineering, Medicine, and Gerontology at USC  
*The cellular and molecular bases for the variability in the onset of age-associated decline in immune regeneration across individuals*

October 11, 2022

**Tian Yi Zhang, MD, PhD** | Assistant Professor, Hematology at Stanford School of Medicine  
*Characterizing the Bone Marrow Milieu and Immune Response in Acute Myeloid Leukemia*

October 18, 2022

**Michael Sadelain, MD, PhD** | Stephen and Barbara Friedman Chair | Director, Center for Cell Engineering at MSKCC  
*CAR T cells and the living drug concept*

October 25, 2022

**Paul Kubes, PhD** | Professor, Snyder Institute for Chronic Diseases at University of Calgary  
*The macrophage in homeostasis, infections and chronic disease*

November 1, 2022

**TBC**

November 8, 2022

**Democracy Day – no class**

November 15, 2022

**Kellie Jurado, PhD** | Presidential Assistant Professor, Department of Microbiology at University of Pennsylvania  
*Learning from emerging virus*

November 29, 2022

**Susan Kaech, PhD** | Professor and Director | NOMIS Center for Immunobiology and Microbial Pathogenesis | NOMIS Foundation Chair at Salk Institute  
*Co-opting tissue resident macrophages in tumors*
